## INFORMATION ABOUT CIVIC GOVERNMENT

### Statutory Authorities :

There are nine Municipal authorities that have been charged with the responsibility of carrying out the provisions of the Mumbai Municipal Corporation Act 1888

- |   |                                |                                   |
|---|--------------------------------|-----------------------------------|
| <b>(1) Corporation</b>  | <b>(2) Standing Committee</b>  | <b>(3) Improvements Committee</b> |
| <b>(4) Brihanmumbai Electric Supply and Transport Committee</b> | <b>(5) Education Committee</b> |                                   |
| <b>(6) Ward Committees</b>                                      | <b>(7) Mayor</b>               | <b>(8) Municipal Commissioner</b> |
| <b>(9) General Manager of the B.E.S.T. Undertaking.</b>         |                                |                                   |

Apart from them, as per amendments made in Section 37 (l) of the Mumbai 'Municipal Corporation Act, 1888', provides for the office of the Deputy Mayor in the Mumbai Municipal Corporation. Section 37 - IA (1) of the 'Mumbai Municipal Corporation Act, 1888', respectively, for the Leader of the Opposition and the Leader of the House, who also enjoy Statutory status. Apart from the Statutory Committees, the Corporation has powers to appoint Special Committees including Women and Child Welfare Committee, under Section 38A (1) of the 'Mumbai Municipal Corporation Act, 1888'. These committees consist of 36 members each. In addition, as required under Section 38 of the Said Act, Consultative Committees have been appointed by the Corporation.

By virtue of the Indian Constitution and for the purpose of making Municipal Administration more public oriented and decentralize powers, seventeen Ward Committees have been established. Each Ward Committee consists of the councillors representing the electoral wards within the territorial area of the wards committee, the ward office in-charge of the said wards committee and other members not exceeding three, nominated from amongst the members of recognized non-government organization and community based organisation engaged in social welfare activities working within the area of the said Wards Committee. The main functions of Ward Committees are to dispose of quickly the matters of local citizens relating to the water supply, cleanliness and other basic civic amenities, etc; grant administrative approval and financial sanction to the plans for municipal works to be carried out within the territorial area of the Wards Committee costing upto Rs. 5 Lakhs.

Tree Authority which is mainly concerned with protection and preservation of trees in Urban area, consists of Municipal Commissioner (Ex-Officio Chairman), 13 elected Councillors, Chairman, of Markets and Gardens Committee (Ex-Officio Member) and 10 nominated members. It functions under the Chairmanship of the Municipal Commissioner.

## ASSESSMENT AND COLLECTION DEPARTMENT

### Capital Value Based Property Tax System

Brihanmumbai Municipal Corporation has adopted Capital Value based tax system with effect from 01-04-2010, all buildings & lands within Mumbai Municipal limits are assessed as per Capital Value System.

Considering the impact of Covid-19 pandemic on Social, Economical conditions, to reduce the burden on tax payers, Sub section 154 (1D) has been inserted in M.M.C. Act, 1888 to defer the revision by three year. Next revision of Capital Value is due in the year 2023-24.

### Recovery of Property Tax :

Property tax is payable half yearly in advance and property tax bill is served on the person liable for payment of the same. Penalty is levied upon the unpaid bills & actions such as attachment of property, Auction sale are initiated for recovery of property tax as laid down under the provisions of M.M.C. Act. 1888. Capital value of Property and Payable Property Tax along with details of Property is available on Brihanmumbai Municipal Corporation website.

Brihanmumbai Municipal Corporation has undertaken Integrated Property Validation Solution [I.P.V.S.], 360 Degree project whereby the property related information has been collected from vendor company at initial survey, has been validated with data available in Property Tax Department. On validation of the data, the accepted deviations which were not in the Property tax Net, have been undertaken for further detailed survey by the vendor company and on receipt of data from vendor company, assessment have been undertaken with related corrections in Property Tax data of the department.

The capital value system has enabled citizens to calculate their property tax and to make online payment of property tax.

Similarly, the following facilities are available on the Brihanmumbai Municipal Corporation website.

1. Current status of Outstanding Tax : Available at Property Tax (New) Tab.
2. Transfer of property in online mode : Available at Property Tax (New) Tab.

## **SEWERAGE OPERATIONS DEPARTMENT**

Sewerage Operations Department operates and maintains the sewerage Network, Sewage Pumping Station, Sewage Treatment Plants (S.T.P.) and Waste Water Treatment Facilities (W.W.T.F.) in seven Sewerage Zones of Mumbai City. The sewage is conveyed through existing underground Sewer Network, collected at various Satellite Pumping Stations, treated at eight different Sewage Treatment Plants and disposed into nearby Sea/Creeks.

The department is also responsible for repairs and rehabilitation of existing sewer lines. The department has installed the sewage recycling plants of smaller capacity in the premises of sewage pumping stations for the reuse of sewage water for non-potable purposes. The department also provides transport services to various sections of Water Supply and Sewerage Disposal department.

The Department falls under the Budget 'G' of the Brihanmumbai Municipal Corporation (B.M. C). Sewerage Operation Department is mainly divided into following sections according to the nature of work.

- i) Main sewer and pipe sewer sections :- Conveyance of sewage.
- ii) Pumping sections :- Collection, Treatment and Disposal of sewage.
- iii) Transport sections :- Transport section has 309 vehicals using which this section provides transport service to various sections of W.S.S.D. department.

- iv) Civil section :- Repairs to sewer lines & civil structures of S. O. Department.
- v) Planning & Construction section :- Rehabilitation of Sewer line, rising mains of pumping stations.

There are seven zones in Mumbai viz. Colaba , Worli, Bandra, Versova, Malad, Ghatkopar, & Bhandup. Each of seven zones has a terminal sewage pumping station and sewage treatment plant. The sewage collected through the sewerage network spread all over Seven Zones is conveyed to the terminal Pumping Station and treatment facilities through a network of sewers and satellite pumping stations for treatment and disposal.

The sewage treatment plant at Colaba provides tertiary treatment, sewage treatment plant at Worli & Bandra provides preliminary treatment and then sewage discharged respectively 1.5 km., 3.5 km. and 3.7 km. in Arabian Sea through Marine Outfalls. Similarly, the sewage from sewage treatment plant at Malad is discharged into Malad Creek after preliminary treatment while from Charkop sewage treatment plant is discharged into Gorai Creek after tertiary treatment. The Sewage treatment plants at Versova, Bhandup and Ghatkopar, provides secondary treatment through aerated lagoons and treated sewage is discharged into Malad & Thane creek.

Mumbai Sewage Disposal Project is constructing new Waste Water Treatment Facilities for complying revised discharge norms issued Maharashtra Pollution Control Board which are in line with guidelines of Hon. National Green Tribunal. As a stop-gap arrangement at Ghatkopar, Bhandup, Versova & Malad sewerage treatment plant, sewerage operation department is treating sewage by bioremediation method. The sewage treated by bioremediation method is meeting the revised norms prescribed by Pollution Control Board.

The main sewer & pipe sewer section undertakes yearly programme for systematic de-silting and cleaning of the sewer network of Mumbai City for smooth flow of Sewage thereby minimizing the complaints of sewage overflow on the roads.

To keep the sewer lines in smooth working condition, the sewer lines are periodically inspected, desilted and cleaned at pre-decided intervals under a systematic cleaning programme. As per 'Prohibition of Employment as Manual Scavenger and their Rehabilitation Act 2013' to prevent direct contact of sewer cleaners with sewage, the cleaning work is mechanized for which various sewer cleaning machines/ equipments as detailed below are used with all safety norms.

1) Jetting Machine	:	01 Nos.
2) Suction Machine 6.5 m <sup>3</sup> capacity	:	02 Nos.
3) Suction Machine 1.5 m <sup>3</sup> capacity	:	12 Nos.
4) Power Bucket Machine	:	11 Pairs
5) Choke Machine (Power Rodding)	:	26 Nos.
6) High Capacity Suction and Jetting Machine with Filtration & Recycling System	:	24 Nos.
7) Grab type Manhole Desilting Machines	:	08 Nos.
8) Quick Response Vehicle	:	10 Nos.
9) Compact Pipe Sewer Cleaning Machine	:	24 Nos.

The department has three centralized control rooms one each at City, Eastern and Western Suburb equipped with Power Rodding Machines and other equipments. These control rooms work round the clock, 24X7 to attend and redress all complaints received pertaining to the sewerage system.

Any complaint about the non functioning of the sewerage system is registered either with the concerned ward or with any of the three main sewer control rooms as stated above. The complaints are also recorded through the Brihanmumbai Municipal Corporation (B.M.C.) website or on the central complaint number 1916 or 14420. Most of the complaints received are resolved within 24 hours.

The establishment schedule post of Sewage Operation Department has 08 Deputy Chief Engineers, 22 Executive Engineers, 60 Assistant Engineers, 122 Sub Engineers, 112 Junior Engineers / Oversears, 3,818 Skilled / Unskilled labour employees. Out of which, at present, the above mentioned works are carried out with the help of, 07 Deputy Chief Engineers, 20 Executive Engineers, 40 Assistant Engineers, 86 Sub Engineers, 60 Junior Engineers / Oversears, 2,059 Skilled / Unskilled labour employees.

### Project - Deonar Dumping Ground, Kanjur Dumping Ground, Mulund Dumping Ground, C & D Deonar Dumping Ground –

At present Deonar Dumping Ground receives about 600-700 M.T. garbage per day. For prevention of environment of Deonar Dumping Ground and surround premises following measures are taken-

- (1) B. M. C. has provided facilities of spraying of herbal based deodorant regularly on the surface of solid waste to control insecticides, flies etc. and provide water tankers for control of fire smoke. In Public health point of view, herbal based deodorant is sprayed on vehicles which transport garbage at check post.
- (2) As well as pipes are installed in dome of garbage for flaring of gases which controls fire incidents at dumping ground.
- (3) Air Quality Monitoring and Research Laboratory, Khar of B.M.C. conducts environmental monitoring each month to have effective control over environment status in and around Deonar site. This keeps check on ambient air quality by measuring gases like Sulphur Dioxide, Nitrogen Dioxide, Carbon Monoxide, Hydrogen Sulphide, Ammonia Methane etc.
- (4) After the successful completion of the project by B. M. C. the pollution in the locality will decrease and people of the nearby localities will benefit from the health point of view.
- 5) The work order for development of 600 M.T. capacity Waste to Energy Project has been issued and development of the same is in progress.

## **Kanjur MSW Processing Site :-**

As per order of Hon. High Court, Mumbai and Hon. Supreme Court the Government of Maharashtra handed over a plot admeasuring 141.77 hectares area at Kanjur to B.M.C. on 24.10.2005 for developing M.S.W. disposal site. Out of said 141.77 hectares area, mangroves area admeasuring 23.36 hectares was retained by the Government of Maharashtra vide notification dtd. 02.04.2012. Hence total land available for kanjur site is 118.41 Ha.

Kanjur M.S.W. Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (S.E.I.A.A.) on 05.12.2014 for 65.96 hectares non C.R.Z. area. Renewed authorization from M. P.C.B. is received on Dt. 23.08.2022.

Further, Kanjur M.S.W. Processing facility has received Environment Clearance from State Environment Impact Assesment Authority Maharashtra (S.E.I.A.A.) on 29.10.2018 for Scientific processing of M.S.W. in 52.45 hectares C.R.Z.-III area.

At present, processing of about 4500 T.P.D. of M.S.W. with bioreactor technology and about 1000 T.P.D. of M.S.W. with windrow composting technology is being carried out at Kanjur M.S.W. Processing facility.

**The measures that are being taken by B.M.C. at Kanjur M.S.W. processing facility to control the odour nuisance are as below :-**

1. Operator of Kanjur M.S.W. Processing facility is spraying Enzyme based deodorant round the clock on the MSW received for processing. Due to spraying of Enzyme based deodorant odour generation drastically.
2. Operator of Kanjur M.S.W. Processing facility has installed misting arrangement around Bio reactor cell to reduce foul smell.
3. Operator has installed flaring system at site through which land fill gas is being flared part of land fill gas is also being use for generation of power which is at this juncture utilized for part of captive consumption, The flaring utilization of land fill gas helps to reduce order.
4. Inactive area of Bioreactor Cell is daily covered by the Operator of Kanjur M.S.W. Processing facility with the help of soil to reduce foul smell.
5. The operator has set up control room to redress the complaints regarding foul smell in the area.

**The Chief Engineer (S.W.M.) New Project Department report regarding scientific processing on M.S.W. generated in Mumbai is as below :-**

### **1. Development of 'Waste to Energy' (WTE) Project at Deonar-**

The tendering process for Waste to Energy project is completed and the work is awarded to the contractor. About 600 T.P.D. M.S.W.. will be processed scientifically and 4 M.W. energy will be generated from this project.

The work order for development of 600 M.T. capacity Waste to Energy Project has been issued and development of the same is in progress.

### **2. Project of Dumpsite Reclamation at Mulund Dumping Ground (M.D.G.) in Mumbai by adopting suitable technology for existing garbage dump-**

Work of Dumpsite Reclamation at Mulund Dumping Ground (M.D.G.) is awarded to the contractor. Commencement of the project is started from 01.10.2019. Contrator has scientifically porcessed and disposed off about 4,35,000 M.T. of legacy waste till 31.12.2021 & further work is under progress M/s. MITCON Consultancy & Engineering Services Ltd. has been appointed as Project Management Consultant (P.M.C.).

### **3. Collection, Transportation, Processing & Disposal of 'Construction & Demolition' (C & D) Waste in Mumbai**

The B. M. C. is planning to process scientifically 1,200 T.P.D. C & D Waste. The tendering process for Collection, Transportation, Processing & Disposal of C & D Waste has been completed and Letter of Acceptance (LoA) has been issued to the contractors in Feb. 2023.

The Project is expected to be commissioned by Feb. - 2024.

### **4. Scientific processing and disposal of Waste at village Karavale , near Taloja -**

Government of Maharashtra (GoM) has allotted about 52.10 Ha land to B.M.C. at village Karavale (Kh.), Tal - Ambarnath, Dist Thane Out of which about 39.90 Ha is Government Land and 12.20 Ha. is private land. Out of the government land, the physical possession of about 12 Ha. Land has been given to B.M.C. on 16.02.2019. This land will be used for Solid Waste Management Projects of B.M.C. Acquisition of remaining government land and about 12.20 Ha. private land is being carried out through Collector, Thane. After receiving physical possession of the said land, B.M.C. will undertake works for development of scientific waste processing facilities.

### **5. Scientific processing of waste at Mulund (E) Near Airoli Bridge -**

Government of Maharashtra (GoM) has allotted about 32.77 Ha. land to B.M.C. at Mulund (E) near Airoli Bridge for development of scientific waste processing facilities. However, the said land is in litigation and physical possession of the land is not yet handed over.

### **Slum Sanitation Program :**

- ❖ The slum sanitation program was launched in 1997 with financial assistance from the World Bank and is a component of the Solid Waste Management Department. The main objective of the program is to provide improved and sustainable toilets to the slum dwellers. Also, the slum cleanliness program is a demand based program and people's participation is the main feature of this program.
- ❖ Under the said program, it is intended that the slum dwellers should be involved in the planning, conceptualization and construction of the toilets and the daily cleaning and maintenance of the constructed toilets should be done by the local residents through public participation. The toilets constructed under the program are handed over by the Brihanmumbai Municipal Corporation to the registered organizations of the local slum dwellers after completion of construction for use on completion of Memorandum of Understanding (M.O.U.). Funds raised through public subscription are expected to be used for day-to-day sanitation, Electricity and Water Supply payments, minor repairs and maintenance and operation of toilets. The toilets constructed through the said program are R.C.C.. Built in a systematic manner, Overhead Tanks, Suction Tanks, Toilets for Children, Toilets for Men, Latrines for the disabled are provided. Electricity supply to toilets and where there is insufficient municipal water supply, water supply is provided through 'Vindhan Vihiri'.
- ❖ Also according to the availability of space, old dilapidated toilets are demolished and double-storied toilets with higher capacity are constructed there. The duration of construction of toilets with capacity less than 20 pits is assumed to be 9 months and for toilets with capacity of 20 and above 12 months is assumed. In the meantime, to avoid inconvenience to the residents, before demolishing the old toilets, temporary toilets are constructed there or mobile toilets are made available through the office of the Chief Engineer (SWM).

A tender of Rs. 920.79 Crores was invited for Lot-11 (R) in the year 2018. 832 toilets with a total of 19,809 toilets were proposed to be constructed under Lot-11(R) contract. 809 toilets with 19,056 toilets were constructed till 2022-23. For this, a fund of Rs. 136.66 Crore was spent in the year 2022-23 and currently all the toilets are in use.

## ASHRAY YOJNA CELL

Brihanmumbai Municipal Corporation has proposed to redevelop the 30 colonies of S.W.M. Conservancy Staff quarters to provide service quarters with extended area (up to 300 and 600 sq. ft.) to approximately 27,900 SWM staff by using 4.00 F.S.I. under Ashray Yojana Cell. ### Information of Mumbai District TB Control Society

The Year 2030 has been set to achieve the goal of TB elimination globally, but the Indian government has announced the goal of eliminating TB in India by 05 years earlier, i.e. by 2025.

About 3% of newly drug-resistant TB cases are found in Mumbai, along with 14% of previously treated cases and the remaining drug susceptible cases. Various measures are implemented to make Mumbai TB free through the Mumbai District Tuberculosis Control Institute. Tuberculosis is a curable disease and the treatment for this disease is completely free in the Municipal Corporation.

The Mumbai District TB Control Society provides various diagnostic & treatment services through 24 District TB Officers posted in 24 districts (Wards) of Mumbai & around 69 Treatment Organisers from Health Department of BMC & 472 contractual staff working in the National TB Elimination Program (NTEP) under the Mumbai District TB Control Society.

### Measures taken by BMC for providing TB services:

#### Diagnosis -

- ❖ Upfront CBNAAT testing - 40 CBNAAT machines at 29 CBNAAT sites and 7 Truenat are offering upfront diagnostic facility for TB
- ❖ Through CSR donation, 05 Truenat machines have been received from FIND organization and these machines were used for covid testing, they are being used for TB suspect testing from January 2022.

#### Treatment-

- ❖ TB treatment is offered through 186 Dispensaries and 211 Health Post and 25 DRTB centres all over Mumbai and two private DRTB centres.
- ❖ 22 drug resistant treatment centers were functioning for the treatment of drug resistant tuberculosis patients. 03 new Drug Resistance Treatment Centers have been started since 2023 and at present around 25 Drug Resistance Treatment Centers are functioning. Also facilities are being provided at Hinduja and Sarvodaya Hospitals for the treatment of private drug resistant tuberculosis patients.
- ❖ Treatment facility for paediatric patients started at Wadia and J.J. Hospital. Also medicines in syrup form and pulverized medicines are provided to child tuberculosis patients. Also, an in-patient department for pediatric tuberculosis patients will be started at GTB Hospital in the coming year.
- ❖ Regular meetings are being held with FDA, Chemist Association and drug distributors to streamline H-1 reporting to increase the number of private sector TB notifications.

### Special initiative for TB patients

- ❖ **TB Champions** - Cured TB patients are being meaningfully engaged as TB Champions for successfully completing the treatment and improving outcome.

- ❖ **Artificial intelligence** - The help of Artificial Intelligence is used for immediate identification (within 3 minutes) of TB suspects on X-ray.

## INSECTICIDE BRANCH

### Vector Control

Mumbai is the pioneer city where Vector Control for prevention of Vector Borne diseases is dealt with professionally since 1923. Main function of Insecticide Branch of Public Health Department is control of Malaria vector Mosquitoes, Dengue and Chikungunya vector mosquitoes, Filaria vector (nuisance) mosquitoes, Fly control & Rodent control.

*Anopheles stephensi* is the only vector which transmits Malaria in Mumbai. To control the malaria vector (*An. stephensi*) under the anti-malaria campaign, source reduction i.e. removal of disused containers / odd articles, filling up of depressions etc. Engineering methods i.e. mosquito proofing of wells and tanks etc., Introduction of larvivorous fishes under biological control method & as a last recourse use of insecticides and fumigation is done. Legislative (Legal) action is used to implement the above mentioned strategies as a part of integrated vector management. Effective control measures are carried out by early action to control the *An. stephensi* breeding places. 'Mumbai Mantra' - a five point program is implemented in Mumbai since year 2011. This program is highly successful and number of malaria cases in Mumbai has reduced considerably.

Dengue and Chikungunya vector, *Aedes aegypti* mosquito breeds in domestic and peri-domestic containers i.e. Drums, Tyres, Scrap Material, Tins, Cans, Flower Pots, Dishes kept below the Flower Pots, Artificial Ornamental Fountains, Feng-shui Plants, Coconut Shells etc. Therefore, above mentioned temporary domestic and peri-domestic containers are either removed destroyed or they are emptied and refilled at least twice a week. General public is made aware of source reduction to control dengue by above mentioned measures. Sensitisation of office bearers of Housing Societies, Commercial Buildings, Schools and Industrial Estates is done through awareness programmes. Massive awareness programs are also taken up in slums when anti-larva measures along with fogging is done.

Nursance (*Culex*) mosquitoes are controlled by insecticided spraying in covered storm water drains & nallahs and by means of fogging, if spraying of larvicides is not possible. Channelization of nallahs and removal of water hyacinth are some of the measures adopted to control culex mosquitoes.

Rodent control and fly control programs are also carried out in all 24 wards of BMC.

Pest Control treatment like antilarval measures and fumigation, if demanded in private premises, is given by the BMC against payment of charges by the owner.

## **CHIEF ENGINEER (ROADS & TRAFFIC)**

### **(1) Road Reforms :**

Road is an important infrastructure. In 2022-23 about 204.23 KM. roads are constructed / improved (104.41 KM. roads in CC and 99.82 KM. in Asphalt). In city area major road such as B. G. Kher Marg, N. S. Patkar Road in 'D' Ward and Veer Nariman Marg in "G South" ward and other major roads in city division have been concretized. In Eastern Subs. area major road such as L. B. S. Road in 'L' ward, N. G. Acharya to Nanddeep Society Road in M West ward, Datta Sai Road, Tagore Nagar in 'S' Ward and Palakhi Society Road, Mulund in 'T' Ward and other major roads in Eastern Subs. division have been concretized. In Western Suburbs area important roads such as Link Road, Malad (W.) in 'P North' ward and other roads have been concretized.

### **2) Traffic Engineering :**

Traffic engineering is an engineering department that is very important for the public and influences their daily lives and is essential for the traffic coordination and planning of the city. The Deputy Chief Engineer (Traffic) carried out works in traffic planning and traffic coordination section. Although traffic is controlled by the traffic police department in the day-to-day functioning of the city, all the systems required for traffic control such as traffic signals, traffic guide strips, design and reconstruction of traffic islands, installation of directional traffic coordination boards, designing new road lines as per requirement and realignment of existing roads, All these important responsibilities are done by the Brihanmumbai Municipal Corporation and all the funds required for it are provided by the BMC.

### **3) Traffic Signages :**

For installation of upgraded Traffic Signages and the road amenities the Brihanmumbai Municipal Corporation has issued a Work Orders of Rs. 60 Crore each in the City, Eastern Suburbs and Western Suburbs and the work is in Progress.

### **4) Parking Authority :**

There are about 45 lakh vehicles registered annually in Mumbai, all of which need to have parking lots at various places in the city for vehicle utility. Accordingly, citizens will use public transport system and independent vehicles in a proper manner. Mumbai currently has 61 on street parking lots and 33 public parking lots. Apart from this, citizens park their vehicles on the side of the road as per their requirement and this is mainly obstructing traffic. Hence it is proposed to set up the Mumbai Parking Authority to ensure the proper manoeuvring of traffic.

There is a provision under Rule 51 of the DCPR 2034 to set up the Mumbai Parking Authority. In order for the authority to get legal powers, the Brihanmumbai Municipal Corporation Act, 1888 needs to be amended and the government has been notified for this purpose and this is being pursued. If the authority comes into existence, the parking lot will be planned in a ensured manner.

### **5) Multi Level Robotic Car Parking :**

To construct Multilevel Mechanical Robotic parking at Mumbadevi in 'C' Ward having 546 capacity and Central Matunga Railway Station in 'F N' Ward having capacity 475 all administrative sanctions have been obtained and Work orders issued and the work is in progress. At present, three Multilevel Mechanical Robotic parking lots are proposed and the tendering process is in progress. After completing the said works approximately 1,000 parking spaces will be available.

### **6) Parking App and Parking Infrastructure :**

The Traffic department has planned to set up a parking app through an online system. through this app, citizens will be able to book vehicle slots in advance, also they can pay through online system as per their convenience. To achieve the necessary infrastructure for this, the work of inviting tenders for parking infrastructure is in progress. This kind of management of available parking will provide facility to citizens and enhance revenue of Brihanmumbai Municipal Corporation.

### **7) Scrapyard :**

According to the guidelines of the Maharashtra Government's Scrapage Policy 2023, the work of developing a new scrapyard to dispose of old vehicles in Mumbai is underway and a global tender is planned to be invited in the next few days. This will provide facility of scientifically disposal of old vehicles & the Brihanmumbai Municipal Corporation with new sources of income.

### **8) Area Traffic Control (ATC)**

At present 258 Signals in Greater Mumbai has already been converted into fully adaptive automated Signal System. The maintenance of remaining 400 conventional system and 197 flashing beacons are being carried out.

#### **Disaster Management Website:**

The website 'dm.mcgm.gov.in' shows following information: High Tide - Low Tide time table, Weather forecast obtained from India Meteorological Department, Live weather parameters updated every 15 minutes, Traffic updates, Status of Local Trains, Status of Air Traffic etc.

#### **Disaster Management App :**

BMC launched 'DISASTER MANAGEMENT' App available on Android & IOS Live rainfall data along with other weather parameters like Temperature, Pressure Humidity, Wind speed, Traffic diversions and Weather forecast from IMD etc. are available which is refreshed in every 15 mins. Also nearby Hospitals, Police Stations, Fire Stations and Ward Offices are geo tagged and this information is available for citizens. SOS button is provided for tracking distress victim. 20 video clips are available on mobile app for awareness of citizens.

#### **Central Complaint Registration System(CCRS):**

On-line complaint management system (CPWM Module) has started from the year 2000 to register civic complaints. Central Complaint Registration System is working 24 x 7. Civic Complaints pertains to BMC are registered on phone no. 1916 in the central control room and sent to the concerned department through online system. Citizen can lodged their complaints online on BMC portal i.e. <http://portal.mcgm.gov.in> Un-attempted complaints are automatically escalated to higher authorities such as Assistant Commissioner - Dy. Municipal Commissioner to Additional Municipal Commissioner and finally to Municipal Commissioner in a time bound manner.

During this pandemic period of affection of Covid-19 from March 2020, the work of management of ambulances, hearses & hospital bed allotment has been assigned to Disaster Management Department. For this "Covid-19 Helpline" for citizens of Mumbai has been started on existing Disaster Management short digit Helpline Number : 1916.

#### **Emergency Support Function (ESF):**

The Disaster Management Department has introduced the Emergency Support Function (ESF). The ESFs provide the co-ordination mechanisms among the various agencies. They provide the organization and process to plan, manage and co-ordinate specific response and preparedness activities common to any hazardous event that can result in an emergency, from the most frequent one to the most extreme one. Each ESF is headed by a lead agency and is supported by identified support agencies. These ESFs form an integral part of the Emergency Operation Centers, each of which will co-ordinate its activities from the Municipal Corporation of Greater Mumbai Emergency Operations Centre.

#### **GIS Based Command and Control system:**

For quick and quality response and for developing decision support tool Disaster Management Department (DMD) had developed a computer based application of technology involving spatial and attribute information. The relevant baseline data is collected from various stakeholders. GIS has emerged as effective tool in Disaster Management some geo spatial data and socio economic information is amalgamated for the better decision making and in handling a disaster or to plan for tackling disasters in scientific manner.

Prime objective of developing GIS is to help DMD for :

1. Pre- Disaster Planning & Preparedness
2. Prediction and Early Warning
3. Decision Support System
4. Damage Assessment & Relief Management

GIS combines layer of information on various themes to enable DMD to take the most appropriate decisions under given circumstance.

1. DMD generate maps both at micro and macro level indicating vulnerability to different extends under different threats perception .
2. Location likely to remain unaffected or remains comparatively safe could be identified.
3. Alternated routes to relief camps and important location in the event of disruptions of normal surface communication could be worked out.
4. Smooth rescue and evacuations operation can be properly planned.

### **City Institute of Disaster Management & Research Centre (CIDM), Parel :**

In case of any mishap happens at MHO and EOC at 2<sup>nd</sup> floor is not accessible or cannot be operated, a backup control room has been setup at CIDM, Parel. This backup control is equipped with Hotlines, Wireless communication, HAM Radio, Video Wall, ESF similar to EOC at MHO. CIDM provides comprehensive training on disaster management and first response to employee of BMC/ Government / Private companies, School and College students, Medical practitioners, Police etc to aware them about scientific ways of disaster management.

3D Auditorium and an Art gallery is developed to show realistic information about of various disasters. The major objective of these facilities is to make visitors aware of disaster and its preparedness. Art gallery has interactive dioramas, display, photographs and information boards for awareness generation of various disasters.

### **Post Graduate Diploma in Disaster, Fire & Industrial Safety Management (PGDDFISM) :**

Considering the importance of Disaster Management and ever increasing impacts of Disasters, CIDM has commenced a one year PGDDFISM course in coordination with GICED and Mumbai University. This course offers scientific learning of concepts of natural and manmade disaster and techniques of every stage in DM. The Primary aim of this course is to educate personal from Government agencies, industries regarding appropriate response to the impending disaster and reduce the impact on mortality and economy.

### **City Disaster Response Force (CDRF) :**

On the basis of National Disaster Response Force (NDRF) at National level and State Disaster Response Force (SDRF) at State level a City Disaster Response Force (CDRF) is establish at City level for Mumbai. The objective of formulating CDRF for Mumbai is to develop self sustainability for responding disasters like major fire, collapse structure, Chemical-Biological-Radiological-Nuclear etc. The personnel appointed for CDRF are from existing Security Force, Mumbai Fire Brigade, Doctors & Paramedics of BMC are trained by National Disaster Response Force (NDRF).

## **SEWERAGE PROJECT DEPARTMENT**

The sewerage system of Greater Mumbai is planned in seven zone viz, Colaba, Worli, Bandra, Versova, Malad, Bhandup & Ghatkopar. Planning & laying of new sewer lines and upsizing of existing sewer lines as per requirement by inviting e-tenders, issuing work orders is done by Dy. Engineer (Sewerage Project) Planning and Design section. The execution of works of sewer lines as per terms

& conditions of the tenders is carried out under the supervision of Dy. Chief Engineer (Sewerage Project) Construction. The laying of sewer lines work is carried out by open cut method & Trenchless method. The Dy. Chief Engineer (Sewerage Project) Planning and Design section & Dy. Chief Engineer (Sewerage Project) Construction section work under Chief Engineer (Sewerage project). Sewerage Project department is working under the control of Dy. Municipal Commissioner (Engineering) Additional Municipal Commissioner (Projects).

## **ENVIRONMENT DEPARTMENT**

Under National Clean Air Programme, Air Draft Action Plan has been prepared to improve the Air Quality of Mumbai City & brought to the level of Ambient Air Quality Standard, as per the guidelines of Central Pollution Control Board & Maharashtra Pollution Control Board & format provided by them, same has been approved by the C.P.C.B. on 24<sup>th</sup> October 2019. Being a co-ordinating agency, BMC has informed all internal stake holders i.e. departments from B.M.C. & external stake holders to start the implementation of action points approved Air Action Plan. The B.M.C. departments such as Ch. Er. (Roads & Traffic), Ch. Er. (SWM), Ch. Er. (DP), Ch. Er. (M. & E.) Executive Health Officer, Superintendent of Garden, Assistant Commissioners of all wards are the main internal stake holders responsible for implementing Air action plan. The R.T.O., Traffic Police, M. M. R. D. A., B. E. S. T., Railway, Metro Railway, M. S. E. B., Reliance, M. S. R. D. C., MHADA, Transport Ministry, Petroleum Ministry, Mining Ministry are the external stake holders has important role in the action plan.

In the action plan the stress is given on widening of road, to reduce the Traffic Jam by removing the bottle neck, synchronization of Traffic, introducing Intelligent Traffic Management System, to control the air pollution in Bandra-Kurla Complex & Lower Parel area by reducing the vehicle emissions, to control the Air Pollution & subsequently Noise Pollution & concentrating on related abatement measures. This plan is time bound, The Grant in Aid of Rs. 10 crore is sanctioned to Municipal Corporation under National Clean Air Programme.

The Ministry of environment, Government of India under fifteen finance commission have granted a grant of Rs. 620 Cr. (approximately) to Brihanmumbai Municipal Corporation for "Air Quality improvement programme and Rs. 990 Cr. (approximately) for conservation, supply and management of water and solid waste management.

Thus for improvement of air quality and water quality under these programme BMC has undertaken various activities such as procuring mechanical sweeper with water sprinklers facility, procuring e-vehicles for its transportation fleet, installing battery charging stations, waste to energy conversation plants, improving green cover by planting and maintaining trees etc.

### **Noise Pollution Control :**

In the matter of public interest litigation No. 173/2010 filed by Mahesh Bedekar V/s State of Maharashtra, as per the direction given by Hon'ble High Court Bombay for the compliance of same, the NEERI has carried out of Noise Monitoring and Noise Mapping of 55 locations in Mumbai City, Noise Mapping Report prepared for Mumbai City, the NEERI has given recommendations & suggestions to control Noise Pollution in Mumbai City and identified the role of various Government / Semi Government authorities to control Noise Pollution in Mumbai City.

As per directions of Member of Secretary of M.P.C.B. the environment department of BMC has written letters to various concern outside department / authorities and various concern internal department of BMC to submit monthly report to Environment department about action taken for implement the recommendations & suggestion made by NEERI. Thus environment department is coordinating the activity in the subject matter. As per the directions in the NEERI report the BMC has formulated the City Noise Pollution Control Committee, which will formulate the guidelines to monitor & control the Noise Pollution in the Mumbai City.

C-40 is an International Organization of major cities of the world. This organization deals with various threat faced by the cities due to climate change and helps them to draw out mitigation measured for it. Mumbai has acquired membership of this organization. To become a member it was needed that the city has its own Climate Action Plan. Environment Department has prepared the "Mumbai Climate Action Plan" (MCAP) which is approved by the C-40 organization. Hence Mumbai now is a member of this C-40 organization. Now Environment Department along with other concerned departments is working on implementation of various aspection of this plan.

Also due to very poor quality of Mumbai in Jan-23 and Feb-23, as per the instructions by Hon. Municipal Commissioner instruction a committee of 8 members from various departments was formed which along with Environment Department came out with "Mumbai Air Pollution Mitigation Plan". This plan was given to all 24 wards where it is being implemented on ward level.

## **Air Quality Monitoring and Research Laboratory Department - Dy.Ch.Engineer (Civil) Environment :**

### **Sub Dept - Scientist In charge, Air Quality Monitoring and Research Laboratory**

**Scientific Approach** - As per 74<sup>th</sup> amendment of the constitution of India in 1992 (12<sup>th</sup> schedule) the Maharashtra State Government issued an ordinance amend Municipal Corporation Act - 1888 making "Environment protection, promotion of ecology and urban forestry" as an oblgatory duty vide section 61 (ab) in the year 1994. And under the section 63-B of Mumbai Municipal Corporation (MMC) Act. 1888. Environmental Status Report is prepared and submitted every year before 31st July to the Corporation.

In view of fulfillment of the above Act, Air Quality monitoring and Research Laboratory working under environment department of Brihanmumbai Mahanagarpalika to measure the levels of air pollutants in Brihanmumbai Municipal Corporation jurisdiction has established a fixed air monitoring station in different location, like Sulphur dioxide (So<sub>2</sub>), Nitrogen dioxide (NO<sub>2</sub>), Amonia (NH<sub>3</sub>), temperature and relative humidity daily. Also measured air pollution level with the help of automatic van (Mobile Van) in dumping ground and traffic junctions. Which includes Sulphur dioxide (SO<sub>2</sub>), Nitrogen dioxide (No<sub>2</sub>), Carbon monoxide (CO), Ozone (O3), Respirable Particulate Matter (PM<sub>10</sub>, PM<sub>2.5</sub>) etc pollutants. Whenever the complaints are received from citizens, special monitoring is carried out and the reports are submitted. This laboratory established in the year 1976 this is the only one environmental laboratory to monitored ambient air pollutant.

The Air Quality monitoring & Research Laboratory have been established Continuous Ambient Air Quality Monitoring Station (CAAQMS) at five different locations within the Brihanmumbai Municipal Corporation jurisdiction in the year 2022-23. Air quality status, Air Quality Index (AQI) will be available through said monitoring stations.

'SAFAR-MUMBAI' is a joint venture of Brihanmumbai Municipal Corporation (BMC), Indian Meteorology Department (I.M.D.) Mumbai & Indian Institute of Tropical Meteorology (I.I.T.M.) Pune. A detailed analysis of the information available through the 'SAFAR-Mumbai Project' is carried out by the Air Quality Monitoring & Research Laboratory. Under 'SAFAR-Mumbai' program status of Air Quality, Weather Forecast & Air Quality Index (AQI) is now available to Mumbaikar's on mobile app namely 'SAFARAir'.

### **Civil Section :**

Repairs work of SWM staff quarters, garages and chowkies are carried out by Dy.Ch.E.(C ) Environment department as per requirement. In Mumbai City there are 46 Colonies for Conservancy Staff of Solid Waste Management department of BMC where approximately 5592 workers are residing. The co-ordination of repairs related works of the building from these colonies and that of the building of Transport Garages and wherever necessary repairs of dumping ground are being carried out by this section.

## MUMBAI COASTAL ROAD PROJECT (SOUTH)

The Mumbai Coastal Road Project (South) is one of the most prestigious projects to be undertaken by B.M.C. The Coastal Road Project is of 10.58 km length from Shamaldas Gandhi Marg (Princess Street) Flyover to Worli End of "Rajiv Gandhi (Bandra Worli) Sea Link". The work of the project is in progress. This project will resolve the traffic congestion in South Mumbai in addition to providing several environmental friendly features to the city. The proposed Coastal Road is having a 4+4 lane configuration and it comprises roads based on reclamation, Bridges, elevated roads and tunnels.

The Mumbai Coastal Road Project will reduce the travel time, decongest existing roads, reduce the air and noise pollution levels, improve public transport by a dedicated bus lane and also generate much needed additional green open spaces. The Revised Estimated Total Project Cost including contingencies and Consultants fees of this work is about Rs. 14,302 Crs.

This Project is divided into three packages. Package IV - From Shamaldas Gandhi Marg (Princess Street) Flyover to Priyadarshini Park and Package I - From Priyadarshini Park to Baroda Palace are awarded to contractor M/s. Larsen And Toubro Ltd. Package II - From Baroda Palace to Bandra Worli Sea Link is awarded to contractor M/s. H.C.C.- H.D.C. (joint Venture). In the Coastal Road Project total three, Project Management Consultants one for each package have been appointed as Employer's Personnel and one General Consultant has been appointed as Employer's representative. This Project work is commenced in October 2018 and expected to be completed by this year. Due to change of span to 120m in the bridge in Package II Worli, the work of the same is expected to be completed by May-2024. The required Budget Provision of Rs. 3545 cr. has been proposed in the financial year 2023-2024.

### The salient features of the Coastal Road Project are :

1.	Length	10.58	KM
2.	Road on reclamation	4.35	KM
3.	Twin Tunnel (3 Lanes, 11m dia.)	2.7	KM each
4.	Bridges (4+4Lanes)	2.19	KM
5.	Interchanges (Amarson, Haji Ali & Worli)	3	nos.
6.	Interchange arm length (3 Lane)	15.66	KM
7.	Seawall Length	7.47	KM
8.	Reclamation Total Area (Excluding Seawall Protection)	96.51	Ha.
9.	Seaside Promenade	7.5	KM
10.	Underground Carparks (Amarson, Haji Ali & Worli-(2), 4 Location	About 1,800	No. of Parking
11.	Reclamation area (Gardens, Landscape, Parks etc.)	About 70	Hectare
12.	Bus Terminals, Worli	1	Nos.
13.	Bus Bays	10	Nos.
14.	Police Chowky	2	Nos.
15.	Pedestrian Underpassess	20	no
16.	Dedicated lanes for Ambulance & Bus		
17.	Sophisticated Saccardo Nozzle Ventilation System		
18.	To Minimize flood risk storm water drain outfalls with automated anti flood gates have been proposed.		

## **Hydraulic Engineer's Department Brihanmumbai's Water Supply – An Overview**

Seven water bodies supplies around 3950 Million litres per day of water to Brihanmumbai. Out of these seven water bodies, Vihar (90 MLD) and Tulsi (18 MLD) located within Mumbai while Tansa (455 MLD), Modak Sagar (Vaiterna) (455 MLD), Upper Vaiterna (640 MLD), Hindu Hriday Samrat Balasaheb Thakre Middle Vaiterna (455 MLD) and Bhatasa (2020 MLD) are located about 100 to 175 KM away from Mumbai.

Raw water from these water bodies is carried to water treatment plants having treatment capacity at Panjarapur (1365 MLD), Bhandup Complex (2810 MLD), Vihar (90 MLD) and Tulsi (18 MLD) through Primary water conveyance system which is about 400 KM in length including water tunnels having length about 43 KM.

In water treatment plants, raw water is treated with Co-agulation, Flocculation, Settling, Rapid Sand Filter and Chlorinated to obtain pure water.

Pure water is to be carried to a long distance and therefore liquid chlorine is used to decontaminate the water. Decontaminated pure water is stored in master balancing reservoir located at Bhandup Complex (Mumbai) and Yevai (Outside of Mumbai). This treated water is further supplied to 27 numbers of service reservoirs located in Mumbai City and Suburbs, using 1200 mm to 2400 mm dia steel pipes and 2200 mm to 3500 mm dia underground water tunnels. It is called as secondary water conveyant system which is about 450 KM in length including 27 KM long water tunnels.

From service reservoirs, water is supplied through about 3 lakh 90 thousand service connections to customers using feder Mains and Distributary Mains, which is called as Tertiary System. It includes water pipeline having diameter 150 mm to 2400 mm. The length of this tertiary system is about 5000 km. Around 1000 valves are operated daily to maintain uninterrupted water supply to Brihanmumbai.

Use of proper water treatment system made it possible to supply water as per the norms of WHO and IS – 10500:2012.

To maintain uninterrupted water supply, BMC undertakes various works, such as, laying of new water mains, to replace old and corroded water mains with new ones, replacing bunches of service connections in a stub water main, to detect and arrest water leakages etc.

About 1150 Engineer's, about 8950 workers and other employee's work round o'clock to uninterrupted water supply to Brihanmumbai. Estimation of population growth water demand and increase in water supply.

### **POPULATION GROWTH, WATER DEMAND & INCREASE IN WATER SUPPLY**

Population of Mumbai is ever increasing steadily. It is estimated that by the year 2041, the population of Mumbai will be around 1 Cr. 72 lakh and water demand will be around 6535 MLD. To meet this demand in the future, Government has proposed to develop water sources at Gargai (440 MLD), Pinjal (865 MLD) and Daman Ganga River connection Project (1586 MLD). These projects are being developed by Chief Engineer (Water Supply Project). It is expected that after completion of these projects, the water supply of Mumbai will be increase by 2891 MLD.

Brihanmumbai Mahanagarpalika is proposing to develop a reliable & enviro–friendly water supply source to increase the water supply to Brihanmumbai's North West region by developing desalination plants at Manori. The total capacity of desalination plants will be around 400 MLD and in 1<sup>st</sup> phase about 200 MLD plant will be developed. The work is to be executed through Chief Engineer (Water Supply Project) Department.
