### SEWERAGE OPERATIONS DEPARTMENT

About 3,850 M.L.D. potable water is supplied to the city of Greater Mumbai every day and about 2,272 M.L.D. sewage is generated. The sewage so generated needs to be collected and disposed of in such a manner as to protect the ecological balance. It is also mandatory for the Corporation to abide by the provisions of the Prevention of Water Pollution Act, the Environment Protection Act, etc.

Sewerage Operations Department operates and maintains the sewerage Network, Sewage Pumping Station, Sewage Treatment Plants (STP) and Waste Water Treatment Facilities (WWTF) brought in place by Sewerage Projects and Mumbai Sewage Disposal Projects departments in seven Sewerage Zones of Mumbai City. The sewage is conveyed through existing underground Sewer Network, collected at various Satellite Pumping Stations, treated at eight different Sewage Treatment Plants and disposed into nearby Sea/Creeks.

The department is also responsible for repairs and rehabilitation of existing sewer lines. The department has installed the sewage recycling plants of smaller capacity in the premises of sewage pumping stations for the reuse of sewage water for non-potable purposes. The department also provides transport services to various sections of Water Supply and Sewerage Disposal department.

The Department falls under the Budget 'G' of the M.C.G.M.

**Departmental Activities :**

Sewerage Operation Department is mainly divided into following three sections according to the nature of work.

- i) Main sewer and pipe sewer section responsible for conveyance of sewage.
- ii) Pumping section responsible for collection, treatment and disposal of sewage.
- iii) Transport section responsible for providing transport services to various sections of W.S.S.D. dept.
- iv) Civil section responsible for repairs to sewer lines & civil structures of S.O dept.
- v) Planning & Construction section responsible for rehabilitation of Sewer line, rising mains of pumping stations.

The main sewer & pipe sewer section undertakes yearly programme for systematic de-silting and cleaning of the sewer network of Mumbai City for smooth flow of Sewage thereby minimizing the complaints of sewage overflow on the roads.

To keep the sewer lines in smooth working condition, the sewer lines are periodically inspected, desilted and cleaned at pre-decided intervals under a systematic cleaning programme. To prevent direct contact with sewage, the cleaning work is mechanized for which various sewer cleaning machines/ equipments like Rodding Machines, Power Bucket Sewer Cleaning Machines Suction Machines, High Capacity Suction

Machines, Jetting Machines, High capacity Suction and Jetting Machine with Filtration and Recycling System, Grab Bucket Machines etc. as detailed below are used with all safety norms.

1) Jetting Machine	:	05 Nos.
2) Suction Machine 6.5 m <sup>3</sup> capacity	:	11 Nos.
3) Suction Machine 1.5 m <sup>3</sup> capacity	:	20 Nos.
4) Power Bucket Machine	:	22 Pairs
5) Choke Machine (Power Rodding)	:	26 Nos.
6) High Capacity Suction and Jetting Machine with Filtration & Recycling System	:	10 Nos.
7) Grab type Manhole Desilting Machines	:	08 Nos.

The department has three centralized control rooms one each at City, Eastern and Western Suburb equipped with Power Rodding Machines and other equipments. These control rooms work round the clock, 24X7 to attend and redress all complaints received pertaining to the sewerage system.

Any complaint about the non functioning of the sewerage system is registered either with the concerned ward or with any of the three main sewer control rooms as stated above. The complaints are also recorded through the M.C.G.M. web site or on the central complaint number 1916. Most of the complaints received are resolved within 24 hours.

The sewage collected through the sewerage network spread all over Mumbai is conveyed to the terminal Pumping Station and treatment facilities through a network of sewers and satellite service pumping stations for treatment and disposal.

There are seven zones in Mumbai Each of seven sewage Zones has a terminal sewage pumping station and sewage treatment plant where the sewage is treated and further disposed into sea/creek. The sewage treatment plant at Colaba, Love Grove, Worli, Bandra, provides primary treatment and the sewage discharged into Arabian Sea through Marine Outfalls, Similarly, the sewage at Malad the sewage is discharged into Malad Creek after primary treatment. These sewage treatment plants at Versova, Bhandup and Ghatkopar, provides secondary treatment through aerated lagoons and treated sewage is discharged into Malad & Thane creek.

### **Conservancy Services:**

**Advance Locality Management (A.L.M.)** :- The ALM concept envisages great involvement and interaction of MCGM with neighbourhood groups in the Wards. These groups co-ordinate with the respective ward office for a better management of civic related issues e.g. garbage, street adoption etc.

Under A.L.M. some small steps are to be taken as follows :-

1) **REDUCE** the waste generated and what is generated should be reused and recycled. This step is more applicable to dry (packaging) wastes.

2) **STORE** the wet and dry wastes in containers of choice e.g. bins, bags, drums etc. prior to disposal.

3) **DISPOSE OFF** the separately stored wet and dry wastes through separate channels of convenience. Dry waste is disposed through scrap dealers rag pickers and local sweepers is done. About 235 tonnes of biodegradable waste is composted per day. Monthly meeting are conducted at ward level.

Approximately 7200 to 7,500 Mt. Solid waste of Mumbai City and Suburbs is received at Deonar, Mulund Dumping Ground and Kanjur Landfill site.

## **Deonar Dumping Ground –**

At present Deonar Dumping ground receives 3,000 mt. garbage per day.

For prevention of environment of Deonar Dumping Ground and surrounding premises following measures are taken-

- (1) M.C.G.M. has provided facilities of spraying of herbal based deodorant regularly on the surface of solid waste to control insecticide, flies etc. and provide water tankers for control of fire smoke. In Public health point of view, herbal based deodorant is sprayed on vehicles which transport garbage at check post.
- (2) As well as pipes are installed in dome of garbage for flaring of gases which controls fire incidents at dumping ground.
- (3) Air quality monitoring & research Laboratory, Khar of MCGM conducts environmental monitoring each month to have effective control over environment status in and around Deonar site. This keeps check on ambient air quality by measuring gases like sulphur dioxide, nitrogen dioxide, carbon monoxide, hydrogen sulphide, ammonia methane etc. The quality of surface water is also monitored by checking the parameters like Ph. Suspended solids, BOD, colour, odour etc. . Similarly, noise level is also monitored to keep tab on noise pollution and to reduce noise levels at the site.
- (4) After the successful completion of the project by M.C.G.M. the pollution in the locality will decrease and people of the nearby localities will benefit from the health point of view.

M/s. Tata Consultancy Engineers(M/s. TCE) have been appointed as a consultant for waste to Energy (WTE) project at Deonar. Tender are invited for 600 TPD capacity each can be installed at Deonar.

## **Kanjur MSW Processing Facility :-**

The land measuring 141.77 ha. area at Kanjur was handed over to MCGM by Government of Maharashtra as per the directions of Hon. Supreme Court for disposal of Municipal Solid Waste (MSW). However, out of the said 141.77 ha. only 65.96 ha, area is available for project. Therefore, on the said land a project for processing of 1,000 TPD of MSW with composting technology and 3,000-6,500 TPD of MSW with Vioreactor technology was envisaged.

Receiving of MSW in Bioreactor Landfill cell is started from 6th March 2015 and construction of compost plant for processing 1,000 TPD of MSW is completed. At present, about 3,000 TPD of MSW is being processed with bioreactor technology and about 250 TPD of MSW is being processed with windrow composting technology at Kanjur MSW Processing facility by operator M/s. Antony Lara Enviro Solutions Pvt. Ltd.

The project activities are being carried out as per the conditions stipulated in revised Environment Clearance from State Level Environment Impact Assessment Authority (SEIAA) and Authorization from Maharashtra Pollution Control Board.

**The measures that are being taken at Kanjur MSW processing facility to control the odour nuisance are as below :-**

1. Operator of Kanjur MSW Processing facility is spraying Enzyme based deodorant round the clock on the MSW received for processing. Due to spraying of Enzyme based deodorant odour generation from MSW reduces drastically.
2. Operator of Kanjur MSW Processing facility has installed misting arrangement around Bio reactor cell to reduce foul smell.

3. Operator has installed flaring system at site through which landfill gas is being flared part of landfill gas is also being used for generation of power which is at this juncture utilized for part of captive consumption. The flaring / utilization of landfill gas helps to reduce odour.
4. Inactive area of Bio reactor Cell is daily covered by the Operator of Kanjur MSW Processing facility with the help of soil to reduce foul smell.

Future planning for processing of Municipal Solid Waste generated daily in Mumbai is as below :-

1. Compost plant of 1,000 TPD capacity at Kanjur :- The work of installation of 1000 TPD capacity compost plant is completed. At present, processing of about 250 TPD of MSW with windrow composting technology is being carried out at Kanjur MSW Processing facility and full fledged commissioning of compost plant is expected in near future.
2. Scientific processing of approx. 1,000 TPD MSW at 52.45 ha. CRZ - III land at Kanjur site :- Environment department of Government of Maharashtra has been requested to give Environment Clearance for processing of MSW on additional land of approx. 52.45 ha. at Kanjur, which is under CRZ - III. Once this request is considered additional quantity of 1000TPD of MSW can be processed at Kanjur with bioreactor technology.

#### **Future plans –**

Deonar and Mulund dumping sites are about to reach saturation point. Therefore MCGM has requested State Govt. to allot land at Taloja for processing of MSW in January 2015. Accordingly State Govt. has allotted land of the 52.10 Ha. To MCGM at Taloja. Also State Govt. has allotted land of 32.77 Ha. at Mulund (East) near Airoli bridge to MCGM. But State Govt. has yet not given actual physical possession of these lands. Therefore MCGM is trying to obtain physical possession of these lands at Taloja & Mulund (East) near Airoli bridge.

#### **Mulund Dumping Ground –**

1,200-1,500 Mt. of garbage is being received daily at Mulund Dumping Ground. Tender for recovery of land at Mulund Dumping Ground by adopting suitable technology is finalised & the contractor has been appointed. Once this project work starts, the receiving of MSW at Mulund Dumping Ground will be stopped.

M.C.G.M. has provided facilities of spraying of herbal based deodorant regularly on the surface of solid waste to control insecticides, flies etc. and provide water tankers for control of fire, smoke. In Public health point of view, herbal based deodorant is sprayed on vehicles which transport garbage at check post. As well as pipes are installed in dome of garbage for flaring of gases which controls fire incidents at dumping ground.

Tendering process for Dumpsites Reclamation at Mulunde Dumping Ground (MDG) by adopting suitable technology for existing garbage dump has been completed and Letter of Acceptance (LOA) is issued to the contractor on 23.07.2018. Contractor is in a process of obtaining various clearances. After obtaining the required clearances, the project execution work will be started soon.

## CHIEF ENGINEER (ROADS & TRAFFIC)

### 1) Road Reforms

Road is an important and visible infrastructure. In accordance with the recommendations of the Standing Technical Advisory Committee (STAC) for roads, major changes have been made in the approach to road constructions, improvement and maintenance. With increase in traffic intensity & loading, related norms have been upgraded and project approach has been adopted as per which road work also includes provision/improvement of footpath, provision/augmentation of municipal utilities such as water-mains, sewer lines, S.W.Drains etc. as per necessity, provision of traffic amenities, beautification etc. Trenching & reinstatement procedures have also been modified to reduce frequent digging. New technologies are introduced to effectively attend to road repair and maintenance.

In Mumbai, the total length of the roads is 1941.15 Km. Out of which, 506.46 Km. length is in City division, 927.64 Km. length is in Western Suburbs division and 507.06 Km. length is in Eastern Suburbs.

## 2) **Cement Concrete Roads**

Considering the increasing volume traffic MCGM has continued to cement concretization of major roads & adjoining roads

In City section 2.827 km of C.C. Roads were improved /widened in the year 2017- 18.

In Eastern Suburbs around 4.48 km of C.C. Roads were improved/widened in the Year 2017-18.

In Western Suburbs around 15.67 km of C.C. Roads were improved/widened in the year 2017-18.

## 3) **Asphalt Roads**

In City section 21.634 km of Asphalt roads were improved /widened in the year 2017-18.

In Eastern Suburbs around 16.167 km of Asphalt roads were improved/widened in the year 2017-18.

In Western Suburbs around 35.14 km of Asphalt roads were improved/widened in the year 2017-18.

## 4) **New Trenching guidelines**

New guidelines have been framed for trenching work so that the trenching work is synchronized with the ongoing road works so as to minimize interrupted traffic movement. Horizontal Drilling Method (HDD) is insisted and encouraged to minimize the open cut in road. A new technology of micro-trenching which is less invasive is also introduced. Depending upon the status of DLP, rates of reinstatement of trenches have been revised.

## 5) **Pedestrian First Policy**

For the first time 'Pedestrian First Policy' is introduced in which special attention is given to avoid conflict between vehicular and pedestrian transportation thereby minimizing accidents and improved way of travel. Being a part of roadway, the footpaths shall be kept consistently along the carriageway which will compel the pedestrian to use it. Uninterrupted width of footpath will be kept from 1.50m to 3.00m depending upon the width of the road. Also the footpath surface will be kept even to encourage the pedestrian to use it. Guard rails and bollards are being provided to improve pedestrian safety and to avoid parking on footpath thereby creating maximum utilization by the pedestrian. Footpath height is kept 150mm from road level so that the commuters can easily step up & down.

## 6) **Parking Policy**

Municipal corporation of greater Mumbai has sanctioned the parking policy vide CR No. 1048 in 2015 for the first time to encourage the public transport and to minimize the traffic congestion with the revision of the parking rates.

The policy framed, on the principle that "The roads are public property/place & so that vehicles creating obstruction shall have to pay the charges". The salient features of the policy are as follows.

The parking lots are classified into two parts. 1) Onstreet parking & 2) Off-street parking then further categories as A, B & C as per the volume/location of the parking lots. The parking rates for public parking lots are kept half the rates as compared to onstreet parking lot. The Monthly Pass is also introduced in policy. There is discount for the Buses & Taxis. Pay & Park lots will be free of charges on

Sunday & Public Holidays nearby to tourist spots to promote the tourism. The parking is prohibited near the Schools & Educational institutions. Moreover the availability & arrangement of parking spaces at night time in Malls & Cinema Theaters, Web based parking, Urban Transport Fund, Special Traffic Call and Traffic Marshals are included.

Now M. C. G. M. started the process for implementation of Pay & Park policy with rate revision. Accordingly on Street pay and park, Amenity parking and Public parking lots schemes are being implemented by appointing contractors through e-tender process.

#### **7) Comprehensive mobility Plan for the first time for the Mumbai City :**

M. C. G. M. has appointed consultant for preparation of Comprehensive Mobility Plan (CMP) with view to solve traffic congestion and implement traffic management and control at several places. The said consultant has submitted CMP in the year 2016 and same was accepted by Municipal Administration.

Copies of CMP were shared with concerned share holders (MMRDA/BEST/Railway etc.) and other department of MCGM for further necessary action.

Short term, medium term and long term traffic and transport measures proposed in CMP will be explored from feasibility point of view and policy decision will be taken for implementation of the same. Some work is already started as per recommendation of CMP.

#### **8) LED Street Lighting**

The meeting to implement to save electric energy in Maharashtra had been conducted under the Chairmanship of Hon. Minister of State for power, coal and new & renewable energy & Hon. Minister of Power, Government of Maharashtra, Hon. Municipal Commissioner of MCGM, General Manager of BEST & M/s. Energy Efficiency Service Limited company were present & it was decided to install the LED Street Light in Mumbai City by M/s. Energy Efficiency Service Limited Company.

It was also decided in the meeting to replace the old traditional street lights (sodium vapor) into LED street light alongwith Marine Drive, Netaji Subhashchandra Bose (Nariman Point to Tambe Chowk) Road which is also known as Queen Neckless in Mumbai by M/s. Energy Efficiency Services Limited Company and accordingly M/s. Energy Efficiency Services Limited has replaced old traditional street light into LED street lights alongwith Netaji Subhash Chandra Bose Road.

To implement this project, technical committee comprising of Hon. General Manager (BEST), M/s. Reliance Energy Limited, Maharashtra State Electricity Distribution Co. Ltd.(MSEDCL), Chief Engineer (M&E) & Dy.Ch.E (Traffic) has been formed under the chairmanship of Additional Municipal Commissioner (E.S.)

The Technical Committee has made a policy of LED Street Lights and same has been submitted to Administration, in which it is included that BEST undertaking has to call E-tender for 10% LED street lights as experimental basis and also to replace traditional (Sodium Vapor) Street lights into LED street lights and to submit maintenance rates to service provider companies. Further BEST has to prepare maintenance rates of other service provider companies to handle technical aspects and to prepare E-tender etc.. It was decided that after finalization of rates from BEST, Ch.E (M&E) who will scrutinize the rates in this process, BEST undertaking is appointed as a Nodal officer and thereafter it was decided that M/s. Reliance Energy & MSEDCL have to call E-tenders for LED Street Lights.

Thereafter, M/s. BEST undertaking has called E-tender after obtaining administrative approval and BEST has replaced 10% LED street light from traditional (Sodium Vapor) as an experimental basis. The remaining street lights will be replaced into LED street lights In phase wise as decided.

BEST undertaking has submitted proposed maintenance rates for LED street light with funding and non funding on 9.11.2017. The said proposal is sanctioned by standing committee vide SCR No. 1055 dated 17.1.2018.

At present, M/s. BEST undertaking has completed 48% LED street light in the city area and remaining work is also undertaken. In suburb area M/s. Reliance Energy Limited and M/s. MSEDCL have completed 22% of LED works and remaining work is in progress.

## **9) Area Traffic Control Management**

The maintenance of 258 fully Adaptive Traffic Control Signals, 368 conventional traffic signals, 198 solar flashers & 12 Non solar flashers is carried out through contractual agencies and the entire traffic signal system is working satisfactorily till date.

The digital countdown timers installed on conventional traffic signals in Greater Mumbai are also working satisfactorily.

As per the recommendation from the consultants appointed for comprehensive mobility plan, the up gradation of conventional signals into Fully Adaptive Area Traffic Control Signals is in progress & remaining signal work is proposed in phase manner.

The Control Rooms of Area Traffic Control signals system installed at Traffic Police Head Quarters, Worli and Municipal Engineering Hub, Worli are working satisfactorily.

MCGM has installed Automatic Weather Stations at various 60 locations all over Mumbai and one flow meter at Mithi River, Powai, all these 60 AWS are connected to Emergency Operation Centre at MHO by dedicated WAN network. The data received from AWS includes rain fall, temperature, humidity, wind speed, wind direction etc. at an interval of 15 minutes. This data can also be received at a preset interval of time. The rainfall data is most important during monsoon, as warnings and alerts are issued to the staff and citizens of Mumbai on the basis of it. In the year 2009, during monsoon period a website having URL “dm.mcgm.gov.in” was launched by MCGM to display rainfall data. From this year, this website will be available throughout the year inclusive monsoon period. The information received from 60 AWS viz. rainfall, humidity, temperature, wind speed, wind pressure etc. Climate, traffic, forecast, tide etc. related information will be made available on this website. In order to facilitate the information to citizens a mobile application “Disaster Management MCGM” has been developed. This mobile application can be downloaded free of cost from Android & IOS operating systems.

**Central Complaint Registration System(CCRS):** This system was introduced in the year 2000. The Control Room working for 365 days receives the complaints on short digit helpline No.1916. The civic complaints are registered in CPWM module of SAP, complaint number is conveyed to the complainant and sent to concerned ward online and Complaints are attended by concerned staff of Ward offices. The complainant can also register the civic complaint on MCGM website viz. portal.mcgm.gov.in.

The complaints regarding emergencies like Fire, Earthquake, Bomb-blast, Land slide, House Collapse, major accidents etc. are also received on '1916'. The emergency complaints received subsequently disseminated to various agencies for quick response.

**Emergency Support Function (ESF):** The Disaster Management Department has introduced the Emergency Support Function (ESF). The ESFs provide the co-ordination mechanisms among the various agencies. They provide the organization and process to plan, manage and co-ordinate specific response and preparedness activities common to any hazardous event that can result in an emergency, from the most frequent one to the most extreme one. Each ESF is headed by a lead agency and is supported by identified support agencies. These ESFs form an integral part of the Emergency Operation Centers, each of which will co-ordinate its activities from the Municipal Corporation of Greater Mumbai Emergency Operations Centre.

**GIS Based Command and Control system:** Disaster management department has developed a GIS application name Command and Control System (CCS) for quick and quality response to the any disasters in Mumbai and Suburbs. The system is in-corporate with Standard Operating Procedures defined for 32 main and their 107 subtypes. The phase-I of this system has been implemented at EOC level to register and response to any disaster in a organized manner.

All the recourses may needed in case of disasters e.g. ward offices, Fire stations, Hospitals, Police stations etc. with their attributes such as available equipments, machinery, man power is being mapped on MCGM GIS map to get the information of recourses needed at a glance.

**City Institute of Disaster Management & Research Centre (CIDM), Parel:** In case of any mishap happens at MHO and EOC at 2<sup>nd</sup> floor is not accessible or cannot be operated, a backup control room has been setup at CIDM, Parel. This backup control is equipped with Hotlines, Wireless communication, HAM Radio, Video Wall, ESF similar to EOC at MHO. CIDM provides comprehensive training on disaster management and first response to employee of MCGM/ Government / Private companies, School and College students, Medical practitioners, Police etc to aware them about scientific ways of disaster management.

This department had proposed a 3D Auditorium and an art gallery at CIDM for showing 3D films and to show realistic exhibition of various disasters respectively. The major objective of these facilities is to make the visitors aware of disaster and its preparedness. The work of 3D Auditorium is completed and the work of Art gallery is in process. Art gallery at CIDM will have interactive dioramas, display, photographs and information boards spreading awareness of various disasters.

**Post Graduate Diploma in Disaster, Fire & Industrial Safety Management (PGDDFISM):** Considering the importance of Disaster Management and ever increasing impacts of Disasters, CIDM has commenced a one year PGDDFISM course in coordination with GICED and Mumbai University. This course offers scientific learning of concepts of natural and manmade disaster and techniques of every stage in DM. The Primary aim of this course is to educate personal from Government agencies, industries regarding appropriate response to the impending disaster and reduce the impact on mortality and economy.

**City Disaster Response Force (CDRF):** On the basis of National Disaster Response Force (NDRF) at National level and State Disaster Response Force (SDRF) at State level it was proposed to establish City Disaster Response Force (CDRF) at City level. The objective of formulating CDRF for Mumbai is to develop self sustainability for responding disasters like major fire, collapse structure, CBRN etc. The personnel appointed for CDRF will be from existing Security Force of MCGM and will be trained by National Disaster Response Force (NDRF). In peace time they will be deployed at various municipal installations. In accordance to the same the process for imparting training by NDRF is in process.

The Government of Maharashtra has notified and declared it on 30.11.2017. The said list is available on the web site of M.C.G.M. at "One MCGM" link.

### **Air Quality Monitoring & Research Lab :**

The Laboratory has established 5 manually operated ambient air quality monitoring stations throughout Greater Mumbai. Pollutants like Sulphur-dioxide, Nitrogen Oxide, Ammonia & Suspended particulate matters are collected on these stations. The suspended particulate matter is further analysed for pollutants like heavy metals such as Copper Cobalt, Chromium, Iron, Lead and Cancer causing Benzoalpha Pyrene. Air quality at other locations can also monitored by the laboratory.

As per section 63 (B) of M.M.C. Act, the Environmental Status Report of Mumbai is prepared and submitted to the Corporation every year before 31<sup>st</sup> July.

### **Civil Wings :**

Since year 2007, the works of minor civil repairs of SWM staff Quarters, Transport Garages are looked after by this department and periodical structural audit carried out.

## COASTAL ROAD PROJECT

The Mumbai Coastal Road Project (South) is one of the most prestigious projects to be undertaken by M.C.G.M. The Southern Coastal Road Project of 9.98 km from Princess Street Flyover to Bandra Worli is proposed to resolve the traffic congestion in Mumbai in addition to providing several environmental friendly features to the city. The proposed Coastal Road having a 4+4 lane configuration comprises roads based on reclamation, Bridges, elevated roads and tunnels.

The Mumbai Coastal Road Project will reduce the travel time, decongest existing roads, reduce the air and noise pollution levels, improve public transport by a dedicated BRTS and also generate much needed additional green spaces which will also decrease CO<sub>2</sub> emission.

The NOC's from concerned departments of Central Government and State Government are obtained for Mumbai Coastal Road ( South).

The Estimated total Project Cost for Southern Coastal Road is Rs. 12,721 Cr.

This Project is divided into three packages. Package I - From Priyadarshini Park to Baroda Palace and Package IV - From Princess Street Flyover to Priyadarshini Park is awarded to M/s. Larsen And Toubro Ltd. Package II - From Baroda Palace to Bandra Worli Sea Link is awarded to M/s. H.C.C.-H.D.C. (joint Venture). For each Package of the Coastal Road Project. One Project Management Consultant is appointed as Employer's Personnel for supervisions and also one General Consultant as Employer's representative to assist and technical advise.

This Project work is started in October 2018 and proposed to be completed within 04 years. The required Budget Provision of Rs. 1,500 cr. has been made in the financial year 2018-2019.

The salient features of the Coastal Road Project are :-

1. Length	9.98	km
2. Road on reclamation	3.50	km
3. Tunnel (3 Lanes, 11m dia.)	3.45	km
4. Bridges (5+5 Lanes)	3.00	km
5. Interchanges (Ambarson, Haji Ali & Worli)	4.00	nos.
6. Interchange arm length (3 Lane)	13.02	km
7. Seawall Length	6.44	km
8. Reclamation Total Area	90	hectare
9. Reclamation area (Gardens, Landscape, Parks etc.)	70	hectare
10. Promenade 20 m width	6.45	km
11. Pedestrian Underpasses	14	nos.
12. Underground Carparks (Ambarson, Haji Ali & Worli)	3	nos. ( 1,625 Parking slots)
13. Generation of approximately employment opportunity due to proposed Coastal Road	1,00,000	
14. BRTS, dedicated lanes for Ambulance		
15. Sophisticated Saccardo Nozzle Ventilation system and special fire protective coating in tunnel		
16. Flood risk minimizes due to better designed drainage system along with automated anti-flood gates and box culverts of 1,650m.
