

## Chapter-5 (Manual-4)

Particulars of any arrangement that exists for  
consultation

with, or representation by, the members of the public  
in relation to the formulation of its policy or  
implementation thereof.

Particulars of any arrangement that exists for consultation with, or representation by, the members of the public in relation to the formulation of its policy or implementation thereof.

The working of this department involves interaction with professionals (Architects / Licensed Surveyors) representing their clients. The public at large is not required to come to Building Proposal Department. As such, there are no arrangements, which exist for consultation with, or representation by the members of public at large in relation to the formalities of its policy or implementation thereof.

The representative body of PEATA is always in contact with Building Proposal Department and regular interaction takes place between PEATA & M.C.G.M. The constructive suggestions are always welcomed. Preparation of Building Proposal Manuals and compilation of Policy circulars of M.C.G.M. on a C.D. are the examples of fruitful co-operation between the representative professional body (PEATA) and M.C.G.M., which has greatly enhanced expeditious disposal of the Building Proposals and brought transparency and unified policy therein.

The general public at large can visit the Dy.Ch.Eng. (B.P.) City in his office on any working day between 3.00 p.m. to 5.00 p.m. to bring out their point of view / grievances etc. which are promptly looked into.
