

MUNICIPAL CORPORATION OF GREATER MUMBAI

INTRODUCTION

Deputy Municipal Commissioner
(Special Engineering)

Work of Hydraulic Engineer deptt. & Ch. E.(Water Supply Project) deptt. controlled by Dy. Municipal Commissioner (Special Engineer).

Hydraulic Engineer

Hydraulics is a branch of engineering science that deals with water storage and water supply. ‘**Hydraulic Engineer**’ of MCGM is In-Charge of water supply to Mumbai. Hydraulic Engineer is statutory post and being head of the department; this department is known as Hydraulic Engineer’s Department.

Chief Engineer (Water Supply Project)

This department was formed in the year 1970 for augmenting the water supply sources and then was called as the project Department from 1972 onwards. The same department is being called as Water Supply Project Department (W.S.P. Deptt.)

The department is carrying out planning as well as its execution of various projects. Various projects to augment the water supply of Mumbai City were planned such as Mumbai- I, Mumbai-II and Mumbai-III and Mumbai-III-A. The Mumbai-I, II & III are completed whereas Mumbai III-A is substantially completed for further augmentation, Mumbai – IV Middle Vaitarna Water Supply Project is also started and is expected to be completed by 2014.

Further projects to augment the water supply namely Gargai, Pinjal, and Damanganga rivers are in the planning stage.
