#### **SECTION4**

#### INTRODUCTION

#### **Background:**

TheBrihanmumbai Municipal Corporationis providing various civic services to the citizens of Mumbai while discharging its obligatory duties. The department of Chief Engineer (SWM) is in-charge of providing various modes of transportation Such as cars, garbage compactors, buses, trucks, ambulance and other transport services from the various garages spread all over the city. The vital services such as Trucks, encroachment vehicles, water tanker are Tender from the Worli garage. These vehicles are washed regularly. For which vehicle washing machine is installed at Worli garage. About 4000 to5000 liters of water is used daily for the washing. To reuse this water it is necessary to purify this water. Hence it is proposed to design and install recycling unit to treat the used water of vehicle washing system

It is therefore proposed to collect the waste water from vehicle washing system in water tank, treat it and reuse it again for vehicle washing application at Worli garage

The vehicle washing machine system is installed at Worli garage is to be upgraded with providing recycling waste water system so that the waste water from the vehicle washing system can be purified and reuse again for vehicle washing operation

The proposal under reference is for Design, manufacture, install and commission waste water recycle system to existing vehicle washing system at Worli. It may be made it clear that the BMC is interested to involve resourceful and experienced parties to comply with technical objectives as prescribed hereafter. Therefore, experienced and interested bidders shall visit the sites at Worli garage under E.E.(Tr.)City and assess themselves about the scope and quantum of the work with assurance of good quality performance before quoting the rates for the subject tender.

- All the information uploaded shall be supported by the corroborative documents inabsenceofwhichtheinformation uploadedshallbeconsideredasbaselessandnotacceptedforqualificationcriteria. Allthedocumen tsshallbeuploadedwithproperpagination. Thepage No. shallbeproperlymentioned in the relevant places.
  - Theinformation shallbeuploaded in thesequence asasked for with proper indexingetc. The Biddershall befully responsible for the correctness of the information uploaded by him.
- 2. Applicants / Bidders shall refer portal.mcgm.gov.in\tenders for "The Manual of Bid-SubmissionforPercentageRate/ItemRateTenderDocument."Thedetailguidelinesforcreationa ndsubmissionofbidareavailableinthereferreddocument.
  - Anyqueriesorrequestforadditionalinformationconcerningthis TENDER shall be submitted by e-mail to. The subject shall clearly bear the following identification / title: "Queries /Requestfor Additional Information: TENDER for" Subject of the tender". Any changes in

mail IDshallbe intimated on the portal.

3. In case of Equal Percentage of lowest bidders (L1), the allotment of workshall be done by giving 48 hrs. (2 working days) from the day of opening of packet 'C' on same BID-Documents number for re-quoting and such development needs to done by IT department in BMC's SRM system. Till such development is made; 'Sealed Bids' shall be called from the bidders quoting the same rates i.e. L1.

In case of equal percentage of lowest bidders is obtained even after re-quoting, then the successful bidders hall be decided by lottery system by concerned Chief Engineer.

The biddershall need to submit the additional ASD if applicable within 7 days after receipt of notification is sued by concerned Chief Engineer. Also, the "Performance Guarantee" shall be paid in specified time period after receipt of "Letter of Acceptance."

# **SECTION7**

# SCOPEOFWORKANDTECHNICALSPECIFICATIONS

# **SCOPEOFWORKANDTECHNICAL SPECIFICATIONS**

## **TECHNICAL SPECIFICATION**

## Sub: - Up gradationof vehiclewashing machine at Worli Garage

At present the vehicle washing system exists at worli garage. Garage uses about 5000 to 10000 ltrs of water daily to wash the vehicles. This water can be saved and reused by purifying and recycling the waste water. Hence it is proposed to collect the waste water from washing system in water tank, treat it and reuse it again for vehicle washing application at Worli garage.

The system is to be upgraded with provision of recycling of waste water. The bidders wish to participate in this tender, shall visit the garage to inspect the existing vehicle washing system and site conditions. On the basis of survey, the bidder should design recycling of waste water system and submit his offer. He has to synchronous the recycling system with the existing vehicle washing machine. If vehicle washing system fails due to faulty recycling system installed by successful bidder, it will be responsibility of the bidder to repair the same and put in operation without charging any extra cost. Moreover a penalty of Rs 2000 per day will be charged for breakdown/ non working of vehicle washing machine.

- 1) The water recycling system shall work on the basis of RO recycling system.
- 2) The tenderer shall supply the recycling system along with PVC water storage tank of 3,000 liter capacity to store the recycled water.
- 3) The recycling system shall have capacity of 30 KLD with following equipments:
- 4) The system shall be designed on the basis that using 60% of water from recycled water and 40% from fresh water.

#### Waste Water storage tank→Pump →Filters 0medias

# The components of Recycling system and its specification shall be as follows

# I. Raw water Pump-1No.

- a. The pump shall act like feeder for the filtration system.
- b. This pump shall be a mono block horizontal type having rated power of 0.25kW. The pump shall have flow rate of 1m<sup>3</sup>/hrat 20 meter of head. Material of construction shall be Cast Iron.
- c. Pump of Tosho/ Kirloskar make will be preferred.
- d. The pump shall be placed at the suitable place to take out the water from the water tank where waste water of vehicle washing system is stored and feed to filtration system

#### II. Electrical Panel:

The system shall have electrical panel to operate the pump on and off. It shall comprise of phase changer facility to avoid failure during change in phase sequence. The panel shall have MCB and

indicating meters such as voltage meter, current meter. The panel shall be from MS material with Powder coating.

- **III. Filters**: Filtration shall be done in various stages to get assured treated water for reuse.
  - a. Chemical dozing: before filtration the chemical dozing system having working pressure 3 kg/cm<sup>2</sup>, working flow of 0-6 LPH. Dozing PVC tank of 100 liters capacity shall be used for this recycling system. It shall be installed on pipe line after the pump and before filtering system.
  - b. Sand Filter: The manually operating multi grade sand filter shall be made up of FRP. It shall be down flow type having size of 350 mm dia X1625 mm height approx. The filters shall be with filter, rinse and backwash provisions for day-to-day cleaning of the filtering system to maintain efficiency of system. To achieve this manual operated multiport valve shall be provided. The flow rate of 1m3/hr and working pressure between 1.8-2.6 kgandcm2 shall be maintained throughout the whole filter. It shall have backwash provision for cleaning/removing sludge. The media for multi grade Sand filter shall be Pebbles, media and sand
  - c. Activated carbon &Charcoal: This manually operating filter shall be made up of FRP.It shall be down flow type having size of 350 mm dia X1625 mm height approx. The filters shall be with filter, rinse and backwash provisions for day-to-day cleaning of the filtering system to maintain efficiency inoperation. This shall be done with the help of manual multiport valve. The flow rate of 1m³/hr and working pressure between 1.8-2.6 kg/cm²shall be maintain in whole filter. Filter shall have backwash provision for cleaning. Themedia for multi grade Sand filter shall be made up of Pebbles, sand, Carbon and Iodine
  - d. **Bag filters**: This filter unit shall comprises of 2 Nos. of **5 microns**. Filtering element, each shall be of sizes 4" x 20" long approximately and shall be housed in PP. The flow rate of 1m<sup>3</sup>/hr with working pressure of 2kg/cm<sup>2</sup> shall be maintained throughout this filter.
  - e. **Micron Cartridge (RO) filter**: This filter unit shall comprises of 2 Nos. of **5 micron membrane**. Filtering element, each shall be of sizes 4" x 20" long approximately and shall be housed in PP. The flow rate of 1m<sup>3</sup>/hr with working pressure of 2kg/cm<sup>2</sup> shall be maintained throughput this filter.
- **IV.** Four nos. of Burden type pressure gauges shall be provided at various stages for monitoring of pressure during the operation. These pressure gauges shall be installed before every filter.
- V. A Float type Rota meter shall be provided immediately after pump. It shall be made from Acrylic.

- VI. To provide proper channel to collect water in sump. To provide wire mesh strainer to avoid the entry of floating/solid material's entry in to the sump. The sump shall be of 100 ltr capacity. The bidder shall provide grease trap after the sump.
- VII. The successful bidder shall provide brick missionary water tank to collect used water from vehicle washing system the capacity of the tank shall be approximately 2000 liters. The tank shall be fully water proof. The tank opening shall be covered as per requirement of the site engineer.
- VIII. The successful bidder shall provide 3000 ltrs capacity PVC water tank to store recycled water. The tank shall be provided with the inlet connection from recycling system as well as connect to existing connection. The outlet of the tank shall be connected to vehicle washing system. The bidder shall provide overflow connection & required valves on the pipes.
  - IX. The required pipe line from pump to filter media and between the filter media and to feeding water tank of Vehicle washing system shall be provided and installed by the successful bidder. All the joints of pipe line shall be leak proof. The waste water purification system shall work automatically with the levels in the waste water tank. Necessary Valves, ball valve shall be installed on pipe line. The setting shall be made as per requirement of site engineer. For this purpose required auto system shall be installed
  - **X.** To install all the component of the system at the site shown by site Engineer with proper foundation by using required fasteners, etc. To install the required electrical panels and auto systems to start /stop the pumps/system.
  - **XI.** After installation of the system to reinstate the site by removing debris etc. generated while work is in progress and clear the site
- **XII.** To paint installed units with one coat of red oxide and two coats of approved enamel paint wherever necessary.
- **XIII.** The BMC will provide clean and properly leveled surface for installation of recycling system.
- XIV. The BMC will provide air, water& electricity with earthing up to the switch gear of recycling plant
- XV. To commission and give successful trial runs to the site engineer and handover the system to BMC.

#### **AMC** of Recycling system

- i. The scope of work also includes 3 years (one year warranty plus two years maintenance) routine maintenance of the equipment as per manufacturer's guidance from the date of commissioning of the system. It covers day to day maintenance of equipment with prescribed level of maintenance service adjustment, settings, etc. The preventive maintenance shall be carried out in required sequence at the garages and for which trained personnel should be appointed. Trained personnel will inspect the equipment once in a month at respective garage and carryout maintenance work.
- ii. The following consumables are required to be replaced during the period of three years by the successful bidder.
  - a) Carbon 50 kg After every 6 month
  - b) Bag filter after every 2 month
  - c) Cartridge filter After- every 1 month
  - d) Chemical- 100 gram per day
- iii. During warranty of one year for equipment from the date of commissioning, the contractor shall have to carry out routine and preventive maintenance. Replace the part if found malfunctioning as per manufacturer's guidelines. The contractor shall submit the list of these items during warranty period. The material and labour cost during the warranty period will not to be paid to contractor by BMC. The Bidder has to consider while quoting their commercial offer. The maintenance cost will be payable for 2nd year as per bill of quantity.
- iv. The spare parts and items which are required to be changed on account of accidental damages / theft and which cannot form a part of routine maintenance will be reimbursed by BMC at actuals. However, the labour charges for minor works shall be borne by the successful bidder. For major work, the successful bidder shall carry out the job at prevailing rate of minimum wages Act approved by State Govt. The successful bidder shall keep adequate spare parts in their stock to render satisfactory service without any interruption. The spare part so required to be replaced shall be charged as per price list submitted along with the bid. The price list should indicate clearly taxes, duties and other charges i. e. labour charges if any.
- v. The contractor shall replace all faulty parts and spares or as advised by manufacturer as per schedule during warranty period.
- vi. Bidder shall raise quarterly bill for payment of maintenance work. Payment will be made as per Municipal procedure i.e. within 30 days from the date of receipt of the bill.

#### 1 GeneralTerms&Conditions

The contractor shall note the following points during submission of tender and execution of the work.

- i) The contractor is advised to visit the site before submitting the offer to get acquainted with the job and exact scope and nature of work.
- ii) The contractor shall arrange all the tools and tackles, machinery, safety devices, scaffolding, ladders, etc. and shall deliver all required material at site and communicate the work program to the engineer seven days in advance. If BMC authorities are convinced about readiness of manpower and material at site, the contractor shall be allowed to commence the work.
- iii) Available water and electricity will only be allowed to use and no extra provision will be made from any other source by BMC.
- iv) The contractor shall include in his cost all the taxes, duties, charges, etc. and shall be responsible to pay taxes such as GST, income tax, and any other local taxes etc. to appropriate authority and these taxes will not be reimbursed by BMC. The contractor shall include all transportation & travelling expenses in their quoted cost.
- v) The contractor shall make provision for material / accessories which are not mentioned in the tender but required for successful completion of the work mentioned in the scope of work. All the items and works which are required for satisfactory completion and guaranteed performance of the system are deemed to be included in the offer and no extra cost will be paid by M.C.G.M.
- vi) The work or part of work which is difficult to carry out in day time can be carried out in the night time with prior intimation & permission of the engineer.
- vii) The contractor shall carry out the work with best workmanship with standard engineering practices under supervision of the engineer.
- viii) All the electrical works shall be carried out with qualified and experienced staff and as per applicable I.E. rules.
- ix) If any of the municipal property is unduly damaged due to negligence of the contractor, the contractor shall have to make it good to the satisfaction of BMC site engineer, without any extra cost to BMC.
- x) The contractor shall be allowed to work during office hours i.e. from 8:00a.m. to 5:00 p.m. on working days only.

## 2 SafetyRequirements

The contractor while performing the works shall take into consideration safety aspects against electrical, mechanical and health hazards to the workmen as well as safety of the installation and plan his work and shall take into consideration following points.

- i) The contractor is requested to fulfill all safety requirements and follow all required safety procedures.
- ii) The contractor shall provide safety apparels, like hand gloves, safety shoes, oxygen masks, oxygen cylinder, gas detector, helmets, gum boots, raincoats, harness belts, disposable aprons, wader suit, etc. to his workmen and the same shall be used depending upon the nature of work and as directed by engineer. First aid box & personnel material like toilet soap, hand cleaner etc. shall be provided at site.
- Sufficient ventilation and lighting arrangement shall be made for safe and comfortable working in the confined space.
- iv) Confined space entry shall be done with safety belts and after satisfactory isolation of the sewers.
- v) Lowering and lifting of material / equipments in confined space shall be done with utmost care and with all safety measures.
- vi) The contractor shall follow all safety rules and regulations for sewage work and other regulations framed by Director, Safety and Health while carrying out the work.
- vii) The contractor shall take all safety measures while carrying out electrical works and shall follow applicable I.E. rules.

BMC will not be responsible for any mishap happened to men, material of the contractor due to the negligence on account of non observance of the safety aspects by his staff.

## **SPECIALDIRECTIONSTOTHETENDERERS**

The scope of work involves To study, design, manufacture, install and commission the auto drizzler mechanism to automatically spray Enzyme base Bio culture on refuse in the hopper of the compactors. Fabricate, supply and install Bio culture spraying arrangement on compactor to spray on collection spots. To carry out Annual Maintenance of System for 02 years.

The specifications only show the requirements briefly. Each tenderer shall attach descriptive literature along with detailed technical brochure describing the items covering all the salient features so that an explanation will be available with the tender as to how the tender meets the requirement stipulated herein.

1. The tenderer should have to furnish the complete technical information.

#### 2. WARRANTY

The bidders shall submit warranty of minimum 01 years.

#### 3. WORKMANSHIP AND MATERIAL

Workmanship executed shall be of the highest order. All safety measures shall be adopted for all the installations.

#### 4. FINISH

The successful tenderer shall arrange demonstration, operational and maintenance training programmed for the BMC staff in case of maintenance of vehicles is to be carried out and the system is required to be shut off during maintenance.

## 5. Quantity Variation

The successful Tenderer shall carry out the work of installation of Auto drizzler mechanism for +/- 25 % Quantity of Refuse Compactors at the same rates terms and conditions quoted for the subject tender with the contract period of Two (02) years.

#### **6.** Payment Terms:

The payment will be released after satisfactory installation, testing and commissioning of the system within 30 Days from submitting bills as per normal Municipal procedures. For Maintenance of system quarterly payment will made subject to checking and verifications of the bill. The payment terms for Annual Maintenance Contract can be changed only after the approval of the competent authorities.

## 7. PenaltyClause:

ThereshallberegularreviewregardingtheperformanceofthecontractorbyBMC.Incase,atan ystage,itisobservedthattheperformanceofthecontractorisunsatisfactoryordiscrepanciesaref

ound in the work scarried out by contractor, BMC reserves the right to cancel the contract and black list the contract und firm (s) after giving due opportunity.

# GENERALCONDITIONSOFCONTRACT

#### GeneralConditionsofContract

#### A.General

#### 1. Definitions

Terms which are defined in the Contract Data are not also defined in the Conditions of Contract but keep their defined meanings. Capital initials are used to identify defined terms.

The "Contract" shall mean the tender and acceptance thereof and the formal agreement if any, executed between the Contractor, Commissioner and the Corporation to gether with the documents referred to the reinincluding these conditions and appendices and any special conditions, the specifications, designs, drawings, price schedules, bills of quantities and schedule of rates. All these documents taken together shall be deemed to form one Contract and shall be complementary to one another.

The Contract Data defines the documents and other information which comprise the Contract.

**The** "Contractor" shallmean theindividual or firmor companywhetherincorporated ornot, whose tender has been accepted by the employer and the legal successor of the individual or firmor company, but not (except with the consent of the Employer) any assignee of such person.

**The Bidder** is a person or corporate body who has desired to submit Bid to carry out the Works,includingroutinemaintenancetillthetenderprocessis concluded.

TheContractor'sBidisthecompletedbiddingdocument submittedbytheContractor totheEmployer.

**The"ContractSum"** meansthesumnamed in the letter of acceptance including Physical contingencies subject to such addition thereto or deduction there-from as may be made under the provisions herein after contained.

Note: The contract sums hall include the following—

- In the case of percentage rate contracts the estimated value of works as mentioned in the tenderadjusted by the Contractor's percentage.
- Inthecase of itemrate contracts, the cost of the work arrived at after finalisation of the quantities shown in schedule of items / quantities by the item rates quoted by the tenderer for various items and summation of the extended cost of each item.
- Incase of lump sum contract, the sum for which tender is accepted.

- Specialdiscount/rebate/tradediscountofferedbythetendererifanyandacceptedbytheCorporation.
- Additionsordeletionsthatareacceptedafteropeningofthetenders.

**The "ContractCost"** means the Contract Sumplus Price Variation. This costs hall be included in the letter of a cceptance.

**ADefect**isanypartoftheWorksnotcompletedinaccordancewiththeContract.

The Defects Liability Certificate is the certificate issued by the Engineer, after the Defect LiabilityPeriodhas endedandupon correctionofDefectsbytheContractor.

Drawings means all thedrawings, calculations and technical information of a like nature provided by the Engineer to the Contractor under the Contract and all drawings, calculations, samples, patterns, models, operation & maintenance manual and other technical information of like natures u bmitted by the Contractor and approved by the Engineer.

The Authority shall mean Municipal Corporation of Greater Mumbai (BMC)

The "Employer" shall mean the Municipal Corporation for Greater Mumbai Municipal Commissioner for Greater Mumbai, for the time being holding the said of fice and also his successors and shall also include all "Additional Municipal Commissioners, Director (Engineering Services & Projects)" and the Deputy Municipal Commissioner, to whom the powers of Municipal Commissioner, have been deputed under Section 56 and 56 Bofthe Mumbai Municipal Corporation Act.

**The Engineer in-charge** shall mean the Executive Engineer in executive charge of the works and shall include the superior officers of the Engineering department i.e. Dy.Ch.Eng/Ch.Eng. and shall mean and include all the successors in BMC

The Engineer's Representative shall mean the Assistant Engineer, Sub. Engineer/Jr. Engineer indirect charge of the works and shall include Sub Eng./ Jr. Eng of Civil section/ Mechanical section/Electricalsection appointed by BMC.

The "Engineer" shall mean the City Engineer / the Hydraulic Engineer / the Chief Engineer / the Special Engineer, appointed for the time being or any other officer or officers of the MunicipalCorporation who may be authorized by the commissioner to carry out the functions of the CityEngineer/theHydraulicEngineer/theChiefEngineer/theSpecialEngineeroranyothercompetent person appointed by the employer and notified in writing to the Contractor to act inreplacement of theEngineer from timetotime.

**Contractor's equipment** means all appliances and things what so ever nature required for the execution and completions of the Works and the remedying of any defects therein, but does not include plant material or other things intended to form or forming part of the Permanent Works.

 $\label{lem:lemployer} The Initial Contract Price is the Contract Price is ted in the Employer's Letter of Acceptance.$ 

**TheIntendedCompletionDate**isthedateonwhichitisintendedthattheContractorshallcompletetheconstructionworks.TheIntendedCompletionDateisspecifiedintheContractData. The IntendedCompletionDate may berevised only by theEngineer by issuing an extensionoftime.

**Materials** are all supplies, including consumables, used by the Contractor for incorporation in the Worksandworks of routine maintenance.

**Plant**isanyintegralpartoftheWorksthatshallhaveamechanical,electrical,electronic,chemical,or biologicalfunction.

**Routine Maintenance** is the maintenance of activities of the competed structure for five years asspecified in the Contract Data.

The "Site" shallmeanthelandandotherplaces including waterbodies more specifically mentioned in the special conditions of the tender, on, under in or through which the permanentworks or temporary works are to be executed and any other lands and places provided by the Municipal Corporation for working space or any other purpose as may be specifically designated in the contract as forming part of the site.

SiteInvestigationReports are those that were included in the bidding documents and are reports about the surface and subsurface conditions at the Site.

"Specification" shall mean the specification referred to in the tender and any modification thereof or addition or deduction thereto as may from time to time be furnished or approved in writing by the Engineer.

**TheStartDate**/CommencementDateisgivenintheContractData.ItisthedatewhentheContractor shall commence execution of the Works. It does not necessarilycoincide with anyoftheSitePossession Dates.

#### ANominatedSub-

**Contractor**isapersonorcorporatebodywhohasaContractwiththeContractortocarryoutapartoftheconstructionworkand/orroutinemaintenanceintheContract,whichincludesworkon theSite.

**TemporaryWorks** are works designed, constructed, installed, and by the Contractor that are needed for construction or installation of the Works.

Variation means a change to the:-

- i) Specification and/or Drawings (if any) which is instructed by the Employer.
- ii) ScopeintheContractwhichisinstructedbytheEmployer.
- iii) PriceintheContractwhichisinstructedbytheEmployer.

The Works, as defined in the Contract Data, are what the Contract requires the Contractor toconstruct, install, maintain, and turnoverto the Employer. Routine maintenance is defined separately.

**Jurisdiction:** In case of anyclaim, dispute or differencearising in respect of a contract, the causeofactionthereofshallbedeemedtohaveariseninMumbaiandalllegalproceedingsinrespectof any claim, dispute or difference shall be instituted in a competent court in the City of Mumbaionly.

## 2. Interpretation

IninterpretingtheseConditionsofContract,singularalsomeansplural,malealsomeansfemale or neuter, and the other way around. Headings have no significance. Words have theirnormal meaning under the language of the Contract unless specifically defined. The Engineer willprovideinstructionsclarifyingqueriesabouttheseConditionsofContract.

If sectional completion is specified in the Contract Data, references in the Conditions of Contract to the Works, the Completion Date, and the Intended Completion Date apply to any Section of the Works (other than references to the Completion Date and Intended Completion Date for the whole of the Works).

The documents forming the Contract shall be interpreted in the following documents: (1) Agreement, (2) Letter of Acceptance, (3) Notice to Proceed with the Work, (4) Contractor's Bid,

- (5)ContractData,(6)SpecialConditionsofContractPart(7)GeneralConditionsofContractPartI,
- (8) Specifications, (9) Drawings, (10) Billof Quantities, and (11) Anyother document listed in the Contract Data.

## 3 .Engineer'sDecisions

Exceptwhereotherwisespecificallystated,theEngineerwilldecidecontractualmattersbetween the Employer and the Contractor in the role representing the Employer. However, if theEngineer is required under the rules and regulations and orders of the Employer to obtain priorapproval of someotherauthorities for specific actions, he willsoobtain the approval, beforecommunicatinghis decisiontothe Contractor.

 $\label{lem:exceptasexpressly stated in the Contract, the Engineershall not have any authority to relieve the Contractor of any of his obligation sunder the contract.$ 

# 4. Delegation

The Engineer, with the approval of the Employer, may delegate any of his duties and responsibilities to other person(s), except to the Adjudicator, after notifying the Contractor, and may cancel any delegation after notifying the Contractor.

#### 5. Communications

All certificates, notices or instructions to be given to the Contractor by Employer/ Engineershallbe sent on the address or contact details given by the Contractor of Bid. The address and contactdetails for communication with the Employer/Engineershall be asperthed etails given in Contract Data. Communications between parties that are referred to in the conditions shall be inwriting. The Notices ent by facsimile (fax) or other electronic means shall be effective on confirmation of the transmission. The Notice ent by Registered postor Speed postshall be effective on delivery or at the expiry of the normal delivery period as undertaken by the postal service.

## 6. Subcontracting

Unless specifically mentioned in the contract subletting will not be allowed. Subletting, whereotherwise provided by the contract shall not be more than 25% of the contract price.

The Contractors hall not be required to obtain any consent from the Employer for:

- a. the sub-contracting of any part of the Works for which the Subcontractorisn amed in the Contract;
- b. the provision for labour, or labour component.
- c. thepurchaseofMaterialswhichareinaccordancewiththestandardsspecifiedintheContract.

Beyondwhathasbeenstatedinclauses 6.1 and 6.2, if the Contractor proposes sub-contracting any part of the work during execution of the Works, because of some unforeseen circumstances to enable him to complete the Works as perterms of the Contract, the Employer will consider the following before according approval:

- $a.\ The Contractor shall not sub-contract the whole of the Works.$
- b. The permitted subletting of work by the Contractor shall not establish any contract ual relationship between the sub-contractor and the BMC and shall not relieve the Contractor of any responsibility under the Contract.

The Engineer should satisfy himself before recommending to the Employer whether

- a. thecircumstanceswarrantsuchsub-contracting; and
- b. thesub-

Contractorsoproposed for the Workpossesses the experience, qualifications and equipment necessary for the job proposed to be entrusted to him.

#### 7. OtherContractors

The Contractor shall cooperate and share the Site with other Contractors, public authorities, utilities, and the Employer between the dates given in the Schedule of Other Contractors, as referred to in the Contract Data. The Contractor shall also provide facilities and services for them as described in the Schedule. The Employer may modify the Schedule of Other Contractors, and shall not if ythe Contractor of any such modification.

The Contractor should take up the works in convenient reaches as decided by the Engineer toensure there is least hindrance to the smooth flow and safety of traffic including movement ofvehiclesandequipmentofotherContractorstillthecompletionoftheWorks.

#### 8. Personnel

The Contractorshall employ for the construction work and routine maintenance the keypersonnel including the echnical personnel named in the Contract Data or other personnel approved by the Engineer. The Engineer will approve any proposed replacement of technical personnel only if their relevant qualifications and abilities are substantially equal to those of the personnel stated in the Contract Data.

The Contractor's personnel shall appropriately be qualified, skilled and experienced in their respective trades or occupations. The Engineer shall have authority to remove, or cause to be removed, any person employed on the site or works, who carries out duties in competently or

negligently and persists in any conduct which is prejudicial to safety, health or the protection of the environment.

If the Engineer asks the Contractor to remove a person who is a member of the Contractor's stafforwork force, stating there as ons, the Contractor shall ensure that the person leaves the Sitewith in sevendays and has no further connection with the Worksinthe Contract.

The Contractors hall not employ any retired Gazette dofficer who has worked in the Engineering Department of the BMC/State Government and has eithernot completed two years after the date of retirement or has not obtained BMC/State Government's permission to employment with the Contractor.

## 9. Employer's and Contractor's Risks

The Employer carries the risks which this Contract states are Employer's risks, and the Contract or carries the risks which this Contract states are Contract or 's risks.

## 10. Employer's Risks

The Employeris responsible for the excepted risks which are (a) in sofar as they directly affect the execution of the Works in the Employer's country, the risks of war, invasion, act of foreign enemies, rebellion, revolution, insurrection or military or usurped power, civil war, riot, commotion or disorder (unless restricted to the Contractor's employees) and contamination from any nuclear fuel or nuclear waste or radioactive toxic explosive, or (b) a cause due solely to the design of the Works, other than the Contractor's design.

#### 11. Contractor's Risks

All risks of loss of or damage tophysical property and of personal injury and death which arised uring and in consequence of the performance of the Contract other than the excepted risks, referred to inclause 11.1, are the responsibility of the Contract or.

#### 12. Insurance

The Contractorathis costs hall provide, in the joint names of the Employer and the Contractor, insurance cover from the Start Date to the end of contract period, in the amounts and deductibles stated in the Contract Data for the following events which are due to the Contract or 's risks:

- a) LossofordamagetotheWorks,PlantandMaterials;
- b) LossofordamagetoEquipment;

c) Lossofordamagetoproperty(otherthantheWorks,

Plant, Materials,

and

Equipment)inconnectionwiththeContract; and

# d) Personalinjuryordeath.

Insurance policies and certificates for insurance shall be delivered by the Contractor to the Engineer for the Engineer's approval before the Start Date. All such insurance shall provide forcompensation tobepayable in the types and proportions of currencies required to rectify the loss or damage in curred.

Alterations to the terms of insurance shall not be made without the approval of the Engineer.

Bothparties shall comply with any conditions of the insurance policies.

IftheContractordoesnotprovideanyofthepoliciesandcertificatesrequired,theEmployer may affect the insurance which the Contractor should have provided and recover thepremiumstheEmployerhaspaid,frompaymentsotherwiseduetotheContractororifnopaymentis due,thepayment ofpremiumsshallbedebt due.

#### 13. SiteInvestigationReports

The Contractor, in preparing the Bid, may rely, at his own risk, on any Site InvestigationReports referred to in theContract Data, supplemented byanyother information availabletohim,beforesubmittingthebid.

## 14. QueriesabouttheContractData

The Engineer will clarify queries on the Contract Data.

#### 15. ContractortoConstructtheWorksandUndertakeMaintenance(ifspecifiedinthetender)

The Contractor shall construct, and install and maintain the Works in accordance with the Specifications and Drawings and asperinstructions of the Engineer.

The Contractors hall construct the works within termediate technology, i.e., by manual means with medium in put of machinery required to ensure the quality of works as perspecifications. The Contractors hall deploy the quipment and machinery as required in the contract.

The Contractor shall take all reasonable steps to protect the environment on and off the Siteand to avoid damage or nuisance to persons or to property of the public or others resulting frompollution, noise or other causes arising as a consequence of his methods of operation.

Duringcontinuanceofthecontract, the Contractor and his sub-

contractorsshallabideatalltimesbyallexistingenactmentsonenvironmentalprotectionandrulesmadethere under,regulations,notificationsand byelawsoftheStateorCentralGovernment, orlocalauthoritiesand any other law, bye-law, regulations that may be passed or notification that may be issued infuture by the State or Central Government or the local authority. Salient features of some of themajorlawsthatareapplicable are given below:

- The Water (Prevention and Control of Pollution) Act, 1974, this provides for the prevention and control of waterpollution and control of water or such alteration of the physical, chemical orbiological properties of water or such discharge of any sewage or trade effluent or of any other liquid, gaseous or solid substance into water (whether directly or indirectly) as may, or is likely to, create a nuisance or render such water harmful or injurious to public health or safety, or to domestic, commercial, industrial, agricultural or other legitimate uses, or to the life and health of an imalsor plants or of aquatic organisms.

## 19. Discoveries

Anythingofhistorical or other interest or of significant valueun expectedly discovered on the Site shall be the property of the Employer. The Contractor shall notify the Engineer of such discoveries and carry out the Engineer's instructions for dealing with them.

#### 20. PossessionoftheSite

The Employershall handover complete or part possession of the Site to the Contractor 7 days in advance of construction programme. At the start of the work, the Employershall handover the possession of attention of the Site of Site of the Site o

least75% of the site free of all encumbrances, the remaining 25% of the possession as percontractor's construct ion programme.

#### 21. AccesstotheSite

The Contractorshall allow accessto the Site and to any place where work in connection with the Contract is being carried out, or is intended to be carried out to the Engineer and any person/persons/agencyauthorized by: a. The Engineer b. The Employer or authorized by the Employer.

#### 22. Instructions

The Contractorshall carry out all instructions of the Engineer, which comply with the applicable laws where the eSite is located.

The Contractorshall permit the appointed and/or authorizedpersons to inspect the Siteand/oraccountsandrecordsoftheContractoranditssubcontractorsrelatingtotheperformanceoftheContract, and to have such accounts and records audited by auditors appointed, if so required. The Contractor's attention is invited to Clause of Fraudand Corruption', which provides, interalia, that acts intended to materially impede the exercise of the inspection and audit rights provided for under the Clause & constitute a obstructive practice subject to contract termination.

Engineertohavepowertoissuefurtherdrawingsorinstructions:

The Engineer shallhavethepower and authority from time to time andat all times to make an issue such furtherdrawings andto give such further instructions and directions as mayappear to him necessary or proper for the guidance of the contractor and the good and sufficient execution oftheworksaccordingtotermsofthespecifications and Contractorshall receive, execute, obeyond be bound by the same, according to the true intent and meaning thereof, as fully and effectually asthoughthesamehadaccompaniedorhadbeenmentionedorreferredtointhespecification, and the Engineer may also alter or vary the levels or position of nature of works contemplated by thespecifications, or may order any of the works contemplated thereby to be omitted, with or without the substitution of any other works in lieu thereof, or may order any work or any portion of workexecuted or partially executed, be removed, changed or altered, added if needful, order thatotherworksshallbesubstitutedinsteadthereofanddifferenceofexpenseoccasionedbyanysuch

Diminution or alteration so ordered and directed shall be added to or deducted from the amount of this Contract, as provided under condition no. 10 (a) hereinafter.

NoworkwhichradicallychangestheoriginalnatureoftheContractshallbeordered bytheEngineer and in the event of any deviation being ordered which in the opinion of the Contractorchanges the original nature ofContract he shall nevertheless carry it out and disagreement as tothe nature of the work and the rate to be paid therefore shall be resolved in accordance withconditionno.13d.

The time forcompletion of the Works, shallbein even of any deviations resulting in additional cost over the contract price being ordered, be extended or reduced reasonably by the Engineer. The Engineer's decision in this case shall be final.

#### **B.TimeControl**

#### 23. Programme

Within the time stated in the Contract Data, the Contractor shall submit to the Engineer forapproval a Programme, including Environment Management Plan showing the general methods, arrangements, order, and timing for all the activities in the Works, along with monthly cash flowforecasts for the construction of works.

Afterthecompletion of the Construction works, the programme for the Routine Maintenance Work, showing the general methods, arrangements, order and timing for all the activities involved in the Routine Maintenance will also be submitted by the Contractor to the Engineer for approval if specified in the tender. The programme for Routine Maintenance shall be submitted in each year for the period of Maintenance.

The Contractors hall submitthe list of equipment and machinery being brought to site, the list of keypersonnel being deployed, the list of machinery/equipment being placed in field laboratory and the location of field laboratory along with the Programme. The Engineershall cause these details to be verified at each appropriate stage of the programme.

AnupdateoftheProgrammeshallbeaprogrammeshowingtheactualprogressachievedon each activity and the effect of the progress achieved on the timing of the remaining Works,includinganychangestothesequence oftheactivities.

The Contractor shall submit to the Engineer for approval an updated Programme at intervals no longer than the period stated in the Contract Data. If the Contract or does not submit an updated Programme within this period, the Engineer may withhold the amount stated in the

Contract Data from the next payment certificate and continue to withhold this amount until thenextpaymentafterthedateonwhichtheoverdueProgrammehasbeensubmitted.

The Engineer's approval of the Programme shall not alter the Contractor's obligations. The Contractor may revise the Programme and submit it to the Engineer again at any time. A revised Programmeshall show the effect of Variations and Compensation Events.

#### 24. ExtensionofTimeInContracts:

Subject toanyrequirement in the contract as to completion of anyportions orportions oftheworks before completion ofthewhole, the contractor shallfully and finally complete the whole of the works comprised in the contract (with such modifications as may be directed under conditions of this contract) by the date entered in the contract or extended date in terms of the following clauses:

## a)ExtensionattributabletoBMC

- (i) ExtensionDueToModification:Ifanymodificationshavebeenorderedwhichintheopinionof the Engineer have materially increased the magnitude of the work, then such extension of the contracted date of completion may be granted as shall appear to the Engineer to be reasonable in the circumstances, provided moreover that the Contractor shall be responsible for requesting such extension of the date as may be considered necessary as soon as the cause thereof shall arise and in any case should not be less than 30 days before the expiry of the date fixed for completion of the works.
- To BMC: (ii) Extension For **Delay** Due In the event ofanyfailure or delay by the BMC to hand over the Contractor possession of the lands necessaryfor the execution of the works or to give the necessary notice to commence the works or to provide the drawings instructions necessary other delaycausedby or or any theBMCduetoany

othercausewhatsoever, then such failure or de lay shall innow ay affector vitiate the contractor alter the charact er thereoforent it lethe contractor to damages or compensation therefore, but in any such case, the BMC may grant such extension (s) of the completion date as may be considered reasonable.

Note: For extension of time period as governed in (i) and (ii) above, any modification sindesign/drawing s, specifications, quantities shall be needed to be justified with recorded reasons with approval of Chief Engineer for not anticipating the same while preparing estimates and draft tender.

(b) Extension of Time for Delay Due to Contractor: The time for the execution of the work or partworks specified in the contract documents shall be deemed to be the essence of the contract and the works must be completed no later than the date (s)/the programme for completionofworkas specified in the contract. If the contractorfails to complete the works within the time as specified in the contract forthe reasonsother than thereasons specified inabove as (a.i) and (a.ii), the BMC may, if satisfied that the works can be completed by the contractor within reasonable short time thereafter, allow the contractor for further extension oftimeastheEngineermaydecide.OnsuchextensiontheBMCshallbeentitledwithoutprejudice to any other right and remedy available on that behalf, to recover the compensation asgovernedby Clause 8(e)ofGCC.

Forthepurposeofthis Clause, the contract value of the works shall be taken as value of work as per contract agree mentincluding any supplementary work order/contract agreement is sued.

Further, competent authority while granting extension to the currency of contract under Clause (b) of as above may also consider levy of penalty, as deemed fit based on the merit of the case. Also, there as ons forgranting extension shall be properly documented.

## 25. DelaysOrderedbytheEngineer

The Engineer may instruct the Contractor to delay the start or progress of any activity withinthe Works. Delay/delays totaling more than 30 days will require prior written approval of the DMC/AMC.

## 26. ManagementMeetings

The Engineermay require the Contractor to attend a management meeting. The business of amanagement meetings hall betoreview the plans for progress of the Works.

The Engineer shall record the business of management meetings and provide copies of therecord to those attendingthe meeting. The responsibility oftheparties foractions to be takenshall be decided by the Engineer either at the management meeting or after the managementmeeting and stated in writing to all those who attended the meeting.

#### 27. Deleted

## 28. Identifying Defects

The Engineer shall check the Contractor's work and notify the Contractor of any Defects that are found. Such checking shall not affect the Contractor's responsibilities. The Engineer may instruct the Contractor to search for a Defect and to uncover and test any work that the Engineer considers may have a Defect.

The Contractor shall permit the Employer's technical person(s) to check the Contractor's work and notify the Engineer and Contractor if any defects that are found.

#### 29. Deleted

#### 30. CorrectionofDefects

- (a) The Engineershall give notice to the Contractor of any Defects with respect to the equipment/vehicle/work during the contract period.
- (b) EverytimenoticeofDefect/Defectsisgiven,theContractorshallcorrectthenotifiedDefect/Defects withinthedurationoftimespecifiedbytheEngineer'snotice.
- (c) The Engineer may issue notice to the Contractor to carry outremoval of defects or deficiencies, if any, notice edinhisins pection, or brought to his notice. The Contractor shall remove the defects and deficiencies within the period specified in the notice and submit to the Engineer acompliance report.

#### 31. UncorrectedDefectsandDeficiencies

If the Contractor has not corrected a Defect under clause and deficiencies in maintenance, to the satisfaction of the Engineer, within the times pecified in the Engineer's notice, the Engineer will assess the cost of having the Defector deficiency corrected, and the Contractor shall pay this amount, on correction of the Defector deficiency by another agency.

# **D.CostControl**

## 32. Variations

The Engineer shall, having regard to the scope of the Works and the sanctioned estimated cost, have power to order, in writing, Variations within the scope of the Worksheconsiders necessary or advisa bleduring the progress of the Works. Such Variations shall form part of the Contract and the Contractor shall carry the mout and include them in updated Programmes produced by the Contractor. Or alorders of the Engineer for Variations, unless followed by written confirmation, shall not be taken into account.

## 33. PaymentsforVariations
